Syllabus*: Course Title and Code (110102102)

First/Second Semester 2021 /2022

COURSE INFORMATION	
Course Name: General Physics 2 **Semester:** **Department:** Department of Physics **Faculty: Faculty of Science**	**Course Code: 110102102** **Section:** 3 **Core Curriculum**: B. Sc. of Science in Physics
Day(s) and Time(s): Sunday: 11:00-11:50 Tuesday: 11:00-11:50 Thursday: 11:00-11:50 **Classroom:** e.g. Biology 232	**Credit Hours:** 3 **Prerequisites**: 1701081136

COURSE DESCRIPTION

Add Course Description

Charge and matter, electric field, Gauss's Law and its applications, electric potential, capacitance and dielectrics, current and resistance, electromotive force and circuits, magnetic force on a charge and on a wire carrying current, sources of magnetic field, Biot–Savart law, Ampere's law, electromagnetic induction, Faraday's law.

DELIVERY METHODS

The course will be delivered through a combination of active learning strategies. These will include:

- PowerPoint lectures and active classroom based discussion
- Collaborative learning through small groups acting in an interdisciplinary context.
- Relevant films and documentaries
- Video lectures
- E-learning resources: e-reading assignments and practice quizzes through Model and Microsoft Team

FACULTY INFORMATION

Name	**Ghassan A. Alna'washi**
Academic Title:	**Associate Professor**
Office Location:	**Physics 106**
Telephone Number:	**+962-5-3903333 ext. 4538**
Email Address:	
Office Hours:	Sunday: 11:00-11:50 Tuesday: 11:00-11:50 Thursday: 11:00-11:50 *Please send an e-mail (alnawashi@hu.edu.jo) to meet at any other time.*

REFERENCES AND LEARNING RESOURCES

Required Textbook:

Textbook(1): Physics for Scientists and Engineers with Modern Physics, Raymond A. Serway and John W. Jewett, Thomson, BROOKS/COLE, 2014, 9th edition

Suggested Additional Resources:

(1) Fundamental of Physics , by David Halliday , Robert Resnick ,and Jearl Walker ,10th Edition , John Wiley and Sons, 2012.

(2) University Physics with modern physics, by Sears and Zemansky, 13th edition, Pearson education, 2012.

STUDENT LEARNING OUTCOMES MATRIX*

Core Curriculum Learning Outcomes	Program Learning Outcomes	Course Objectives	Course Student Learning Outcomes	Assessment Method
CC-LO-5 Think critically and creatively in a variety of methods in order to make decisions and solve problems.	CHEM-LO-1: Apply critical thinking and demonstrate problem-solving skills in two or more of the major fields of phsyics.	1. Develop an understanding of the basic principles of the major branches of physics.	1. Develop a clear understanding of basic physical concepts in electricity and magnetism as an integral part of the student's overall education	• Exams • Quizzes • "On-line' reading assignments • homework assignments
		2. Obtain a thorough foundation in the various fields of physics.	2. Explain natural phenomena using simple physics concepts.	• Exams • Quizzes • "On-line' reading assignments
		3. Learn to solve physical problems using basic mathematics.	2. Use algebra, trigonometry, basic calculus, and rules of vector analysis in solving problems in electricity and magnetism	• Exams • Quizzes • "On-line' reading assignments • homework assignments
		4. Develop an understanding of models and theories of physics	3. Provide detailed and accurate descriptions of Ohm's law, Gauss's law, Gauss's law in magnetism , Ampere's law, Biot-Savart Law, and Faraday's law 4. Develop the learning skills of students in using computers as educational tools, problem solving and demonstration.	• Exams • Quizzes • "On-line' reading assignments • homework assignments
.CC-LO-4. Communicate competently with others using oral and written English skills	CHEM-LO-4: Use modern literature search methods to obtain information about physics topics and write reports.	5. Obtain an understanding of the role of physics in other disciplines, and its importance in society.	5. Acquire the ability to learn independently; articulate the importance of independent learning for future professional development	• "On-line" reading assignments • Term project

CC-LO-6. Demonstrate competency in the use of research skills and various information sources. CC-LO-7. Identify the general concepts of humanities and natural sciences in a manner that reveals their value in life.	CHEM-LO-6: Communicate results to physicists and non-physicists.	6. Acquire positive attitudes towards further studies in physics and towards the application of physics in other disciplines.	6. Develop a positive attitude towards physics and its applications in society, and towards further study and lifelong learning.	• Term project

*[illegible]

ACADEMIC SUPPORT

It is The Hashemite University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their instructor to ensure that their individual needs are met. The University through its Special Need section will exert all efforts to accommodate for individual's needs.

COURSE REGULATIONS

Participation

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student should not miss more than 15% of the classes during a semester. *Those exceeding this limit of 15% will receive a failing grade regardless of their performance*. It is a student's responsibility to monitor the frequency of their own absences. **Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration. It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.**

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

Plagiarism

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a student is expected not to engage in behaviours that compromise his/her own integrity as well as that of the Hashemite University.

Plagiarism includes the following examples and it applies to all student assignments or submitted work:

- **Use of the work, ideas, images or words of someone else without his/her permission or reference to them.**
- **Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.**
- **Misrepresentation of the sources that were used.**

The instructor has the right to fail the coursework or deduct marks where plagiarism is detected

Late or Missed Assignments

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty. Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.
- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with University regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Student Complaints Policy

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the students' handbook.

COURSE ASSESSMENT

Course Calendar and Assessment

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

Assessment	Grade Weighting	Deadline Assessment
Exam 1	e.g. 30%	To be announced
Exam 2	e.g. 30%	To be announced
Final Exam (3)	e.g. 40%	To be announced

Description of Exams

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions.

Homework: Will be given for each chapter, while the chapter in progress you are supposed to work on them continuously and submit in next lecture when I finish the chapter.

You are also expected to work on in-chapter examples, self-tests and representative number of end of chapter problems. The answers of self-tests and end of chapter exercises are given at the end of the book.

Quizzes: Unannounced quizzes will be given during or/and at the end of each chapter based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Grades are not negotiable and are awarded according to the following criteria*:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
A		3.75
A-		3.50
B+	Very Good	3.25
B		3.00
B-		2.75
C+	Good	2.50
C		2.25
C-		2.00
D+	Pass	1.75
D	Pass	1.50
F	Fail	0.00
I	Incomplete	-

WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION

مثل على التوزيع : مساق الكيمياء العامة 101

"Lecture hours and weeks are approximate and may change as needed"

Note: For Chem 101 sections with 2 lecture periods per week (S/T, M/W or T/R), one lecture period covers 1.5 lecture hours (80 minutes). The course content specifies the sections in chapters 1-10 of the textbook that will be included in quizzes, homework and exams.

Number of Lectures	Chapter / Sections	Suggested Problems
6	Chapter 23 23.1 Properties of electric charges 23.2 Charging objects by induction 23.3 Coulomb's Law 23.4 The electric field 23.5 Electric field of continuous charge distribution 23.6 Electric field lines 23.7 Motion of charged particles in an electric field	Problems: 7, 9, 14, 21 ,25 32 , 36
4	Chapter 24 24.1 Electric flux 24.2 Gauss's law 24.3 Applications of Gauss's law to various distributions 24.4 Conductors in electrostatic equilibrium	Problems: 4, 8, 9, 10, 18 20
5	Chapter 25 25.1 Electric potential and potential difference 25.2 Potential difference in a uniform electric field 25.3 Electric potential and potential energy due to point charges 25.4 Obtaining the value of the electric field from the electric potential. 25.5 Electric potential due to continuous charge distribution 25.6 Electric potential due to a charged conductor	Problems: 1, 3, 10, 27, 33, 39,
FIRST EXAMINATION		
5	Chapter 26 26.1 Definition of capacitance 26.2 Calculating capacitance 26.3 Combinations of capacitors 26.4 Energy stored in a charged capacitor 26.5 Capacitors with dielectrics	Problems: 2, 3, 5, 15, 17, 24, 38
4	Chapter 27 27.1 Electric current 27.2 Resistance 27.4 Resistance and temperature 27.6 Electrical power	Problems: 2, 6, 11, 18, 31
4	Chapter 28 28.1 Electromotive force	Problems: 1, 5, 11, 16, 17,25, 29

	28.2 Resistors in series and parallel 28.3 Kirchhoff's rules 28.4 RC Circuits	
SECOND EXAMINATION		
5	Chapter 29 29.1 Magnetic fields and forces 29.2 Motion of a charged particle in a uniform magnetic field 29.4 Magnetic force acting on a current-carrying conductor.	Problems: 1, 3, 7, 25
4	Chapter 30 30.1 The Biot Savart law 30.2 The magnetic force between two parallel conductors 30.3 Ampere's law	Problems: 1, 2, 11, 16, 21
3	Chapter 31 31.1 Faraday's law of induction 31.2 Motional emf	Problems: 1, 7, 18

ASSESSMENT RUBRICS

Classroom Participation: Assessment Criteria					
Criteria	**Quality**				**Score**
	Excellent (4 points)	**Good (3 points)**	**Satisfactory (2 points)**	**Needs Improvement (1 points)**	
Degree to which student integrates course readings into classroom participation	- often cites from readings; - uses readings to support points; - often articulates "fit" of readings with topic at hand.	-occasionally cites from readings; - sometimes uses readings to support points; -occasionally articulates "fit" of readings with topic at hand **.**	-rarely able to cite from readings; - rarely uses readings to support points; - rarely articulates "fit" of readings with topic at hand	-unable to cite from readings; -cannot use readings to support points; cannot articulates "fit" of readings with topic at hand .	2
Interaction/ participation in classroom discussions	-always a willing participant, responds frequently to questions; - routinely volunteers point of view .	-often a willing participant, - responds occasionally to questions; - occasionally volunteers point of view .	-rarely a willing participant, - rarely able to respond to questions; - rarely volunteers point of view .	-never a willing participant., - never able to respond to questions; - never volunteers point of view .	2
Interaction/participation in classroom learning activities	-always a willing participant; -acts appropriately during all role plays; - responds frequently to questions; - routinely volunteers point of view.	-often a willing participant; -acts appropriately during role plays; - responds occasionally to questions; -occasionally volunteers point of view.	-rarely a willing participant. -occasionally acts inappropriately during role plays; - rarely able to respond to direct questions; -rarely volunteers point of view .	-never a willing participant - often acts inappropriately during role plays;, - never able to respond to direct questions; - never volunteers point of view.	3
Demonstration of professional attitude and demeanor	-always demonstrates commitment through thorough preparation; - always arrives on time; - often solicits instructors' perspective outside class.	- rarely unprepared; rarely arrives late; - occasionally solicits instructors' perspective outside class **.**	-often unprepared; occasionally arrives late; - rarely solicits instructors' perspective outside class .	-rarely prepared; - often arrives late; -never solicits instructors' perspective outside class	2

Assessment Rubrics to be determined by the department. Add samples below.

Classroom Participation: Oral Presentation

Element	Excellent			Satisfactory			Needs Improvement			Points
	8	7	6	5	4	3	2	1	0	
Organization	There is a logical sequence of information. Title slide and closing slide are included appropriately.			There is some logical sequence of information. Title slide and closing slides are included.			There is little or no logical sequence of information. Title slide and/ or closing slides are not included.			7
Slide Design (text, colors, background, illustrations, size, titles, subtitles)	Presentation is attractive and appealing to viewers.			Presentation is somewhat appealing to viewers.			Little to no attempt has been made to make presentation appealing to viewers.			7
Content	Presentation covers topic completely and in depth. Information is clear, appropriate, and accurate.			Presentation includes some essential information. Some information is somewhat confusing, incorrect, or flawed.			Presentation includes little essential information. Information is confusing, inaccurate, or flawed.			7
Language	Spelling, grammar, usage, and punctuation are accurate Fluent and effective			There are minor problems in spelling, grammar, usage, and/or punctuation.			There are persistent errors in spelling, grammar, usage, and/or punctuation. Less or not fluent and effective.			7
Delivery	Ideas were communicated with enthusiasm, proper voice projection and clear delivery. There was sufficient eye contact with audience. There were sufficient use of other non-verbal communication skills. Appropriate delivery pace was used.			There was some difficulty communicating ideas due to voice projection, lack of preparation, incomplete work, and/or insufficient eye contact. Insufficient use of non-verbal communication skills. Delivery pace is somewhat appropriate.			There was great difficulty communicating ideas due to poor voice projection, lack of preparation, incomplete work, and/or little or no eye contact. No use of non verbal communication skills. Inappropriate delivery pace was used.			7
Interaction with	Answers to questions are coherent and complete.			Most answers to questions are coherent and complete.			Answers to questions are neither coherent nor complete.			7

Audience	▪ Answers demonstrate confidence and extensive knowledge.	▪ Answers somehow demonstrate confidence and extensive knowledge.	▪ Is tentative or unclear in responses.	
	Total Score (Y x 5/16) =			

- يمكن اجراء التعديلات المناسبة حسب طبيعة المقرر وبالتنسيق مع الكلية المعنية وتحديد أنواع التعلم بوضوح (الكتروني، مدمج، وجاهي) ونماذج التعلم (نسبة التعلم الوجاهي الى الألكتروني ونسبة التعلم المتزامن الى غير المتزامن) التي سوف يتم اتباعها أثناء تدريس المساقات وبما يتوائم مع نسب الادماج المشار اليها في كتاب مجلس التعليم العالي رقم مع/1427. .
