The Hashemite University

Deanship of Academic Development and International Outreach

عمادة التطوير الأكاديمي والتواصل الدولي

Syllabus*: Course Title and Code (110102102) First/Second Semester 2021 /2022

COURSE INFORMATION						
Course Name:	General Physics 2	Course Code:	110102102			
Semester:		Section: 3				
Department: Department of Physics		Core Curricul	um: B. Sc. of Science in			
Faculty: Faculty of Science		Physics				
Day(s) and Time((s): Sunday: 11:00-11:50	Credit Hours:	3			
	Tuesday: 11:00-11:50	Prerequisites:	1701081136			
	Thursday: 11:00-11:50					
Classroom:	e.g. Biology 232					

COURSE DESCRIPTION

Add Course Description

Charge and matter, electric field, Gauss's Law and its applications, electric potential, capacitance and dielectrics, current and resistance, electromotive force and circuits, magnetic force on a charge and on a wire carrying current, sources of magnetic field, Biot-Savart law, Ampere's law, electromagnetic induction, Faraday's law.

DELIVERY METHODS

The course will be delivered through a combination of active learning strategies. These will include:

- PowerPoint lectures and active classroom based discussion
- Collaborative learning through small groups acting in an interdisciplinary context.
- Relevant films and documentaries
- Video lectures
- E-learning resources: e-reading assignments and practice quizzes through Model and Microsoft Team

	FACULTY INFORMATION		
Name	Ghassan A. Alna'washi		
Academic Title:	Associate Professor		
Office Location:	Physics 106		
Telephone Number:	+962-5-3903333 ext. 4538		
Email Address:			
Office Hours:	Sunday: 11:00-11:50 Tuesday: 11:00-11:50 Thursday: 11:00-11:50 Please send an e-mail (alnawashi@hu.edu.jo) to meet at any other time.		

REFERENCES AND LEARNING RESOURCES

Required Textbook:

Textbook(1): Physics for Scientists and Engineers with Modern Physics, Raymond A. Serway and John W. Jewett, Thomson, BROOKS/COLE, 2014, 9th edition

Suggested Additional Resources:

- (1) Fundamental of Physics, by David Halliday, Robert Resnick, and Jearl Walker, 10th Edition, John Wiley and Sons, 2012.
- (2) University Physics with modern physics, by Sears and Zemansky, 13th edition, Pearson education, 2012.

STUDENT LEARNING OUTCOMES MATRIX*

Core Curriculum Learning Outcomes	Program Learning Outcomes	Course Objectives	Course Student Learning Outcomes	Assessment Method
CC-LO-5 Think critically and creatively in a variety of methods in order to make decisions and	CHEM-LO-1: Apply critical thinking and demonstrate problem-solving skills in two or more of the major fields of phsyics.	1. Develop an understanding of the basic principles of the major branches of physics.	1. Develop a clear understanding of basic physical concepts in electricity and magnetism as an integral part of the student's overall education	 Exams Quizzes "On-line' reading assignments homework assignments
solve problems.		2. Obtain a thorough foundation in the various fields of physics.	2. Explain natural phenomena using simple physics concepts.	ExamsQuizzes"On-line' reading assignments
		3. Learn to solve physical problems using basic mathematics.	2. Use algebra, trigonometry, basic calculus, and rules of vector analysis in solving problems in electricity and magnetism	 Exams Quizzes "On-line' reading assignments homework assignments
		4. Develop an understanding of models and theories of physics	3. Provide detailed and accurate descriptions of Ohm's law, Gauss's law, Gauss's law in magnetism, Ampere's law, Biot-Savart Law, and Faraday's law 4. Develop the learning skills of students in using computers as educational tools, problem solving and demonstration.	 Exams Quizzes "On-line' reading assignments homework assignments
.CC-LO-4. Communicate competently with others using oral and written English skills	CHEM-LO-4: Use modern literature search methods to obtain information about physics topics and write reports.	5. Obtain an understanding of the role of physics in other disciplines, and its importance in society.	5. Acquire the ability to learn independently; articulate the importance of independent learning for future professional development	 "On-line" reading assignments Term project

CC-LO-6. Demonstrate competency in the use of research skills and various information sources.	CHEM-LO-6: Communicate results to physicists and non- physicists.	6. Acquire positive attitudes towards further studies in physics and towards the application of physics in other disciplines.	6. Develop a positive attitude towards physics and its applications in society, and towards further study and lifelong learning.	•	Term project
CC-LO-7. Identify the general concepts of humanities and natural sciences in a manner that reveals their value in life.					

*يَطُ العَيْكِ اللهُ مَعْ الْصَدَى طُلُهُ الْعِيْنِ اللهُ الْعِيْدِيدِ الْطَاعُ الْكِالِدِ الْعَلَى خَلَطُهُ حَسى

ACADEMIC SUPPORT

It is The Hashemite University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their instructor to ensure that their individual needs are met. The University through its Special Need section will exert all efforts to accommodate for individual's needs.

COURSE REGULATIONS

Participation

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student should not miss more than 15% of the classes during a semester. Those exceeding this limit of 15% will receive a failing grade regardless of their performance. It is a student's responsibility to monitor the frequency of their own absences. Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration. It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

Plagiarism

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a student is expected not to engage in behaviours that compromise his/her own integrity as well as that of the Hashemite University.

Plagiarism includes the following examples and it applies to all student assignments or submitted work:

- Use of the work, ideas, images or words of someone else without his/her permission or reference to them.
- Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.
- Misrepresentation of the sources that were used.

<u>The instructor has the right to fail the coursework or deduct marks where plagiarism is detected</u>

Late or Missed Assignments

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty.
 Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.
- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with University regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Student Complaints Policy

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the students' handbook.

COURSE ASSESSMENT

Course Calendar and Assessment

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

Assessment	Grade	Deadline
	Weighting	Assessment
Exam 1	e.g. 30%	To be
		announced
Exam 2	e.g. 30%	To be
		announced
Final Exam (3)	e.g. 40%	To be
		announced

Description of Exams

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions. **Homework:** Will be given for each chapter, while the chapter in progress you are supposed to work on them continuously and submit in next lecture when I finish the chapter.

You are also expected to work on in-chapter examples, self-tests and representative number of end of chapter problems. The answers of self-tests and end of chapter exercises are given at the end of the book.

Quizzes: Unannounced quizzes will be given during or/and at the end of each chapter based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Grades are not negotiable and are awarded according to the following criteria*:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
А		3.75
A-		3.50
B+	Very Good	3.25
В		3.00
B-		2.75
C+	Good	2.50
С		2.25
C-		2.00
D+	Pass	1.75
D	Pass	1.50
F	Fail	0.00
1	Incomplete	-

WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION

مثل على التوزيع : مساق الكيمياء العامة 101

"Lecture hours and weeks are approximate and may change as needed"

Note: For Chem 101 sections with 2 lecture periods per week (S/T, M/W or T/R), one lecture period covers 1.5 lecture hours (80 minutes). The course content specifies the sections in chapters 1-10 of the textbook that will be included in quizzes, homework and exams.

Number of	Chapter / Sections	Suggested Problems
Lectures		
6	Chapter 23	Problems:
	23.1 Properties of electric charges	7, 9, 14, 21 ,25 32 , 36
	23.2 Charging objects by induction	
	23.3 Coulomb's Law	
	23.4 The electric field	
	23.5 Electric field of continuous charge distribution	
	23.6 Electric field lines	
	23.7 Motion of charged particles in an electric field	
4	Chapter 24	Problems:
	24.1 Electric flux	4, 8, 9, 10, 18 20
	24.2 Gauss's law	
	24.3 Applications of Gauss's law to various distributions	
	24.4 Conductors in electrostatic equilibrium	
5	Chapter 25	Problems:
	25.1 Electric potential and potential difference	1, 3, 10, 27, 33, 39,
	25.2 Potential difference in a uniform electric field	
	25.3 Electric potential and potential energy due to point	
	charges	
	25.4 Obtaining the value of the electric field from the	
	electric potential.	
	25.5 Electric potential due to continuous charge	
	distribution	
	25.6 Electric potential due to a charged conductor	
FIRST EXAMI	NATION	
5	Chapter 26	Problems:
	26.1 Definition of capacitance	2, 3, 5, 15, 17, 24, 38
	26.2 Calculating capacitance	
	26.3 Combinations of capacitors	
	26.4 Energy stored in a charged capacitor	
	26.5 Capacitors with dielectrics	
4	Chapter 27	Problems:
	27.1 Electric current	2, 6, 11, 18, 31
	27.2 Resistance	
	27.4 Resistance and temperature	
	27.6 Electrical power	
4	Chapter 28	Problems:
	28.1 Electromotive force	1, 5, 11, 16, 17,25, 29

	28.2 Resistors in series and parallel 28.3 Kirchhoff's rules 28.4 RC Circuits	
SECONI	DEXAMINATION	
5	Chapter 29 29.1 Magnetic fields and forces 29.2 Motion of a charged particle in a uniform magnetic field 29.4 Magnetic force acting on a current-carrying conductor.	Problems: 1, 3, 7, 25
4	Chapter 30 30.1 The Biot Savart law 30.2 The magnetic force between two parallel conductors 30.3 Ampere's law	Problems: 1, 2, 11, 16, 21
3	Chapter 31 31.1 Faraday's law of induction 31.2 Motional emf	Problems: 1, 7, 18

ASSESSMENT RUBRICS

	Classroo	m Participation: Ass	sessment Criteria		
	Quality	·			S
Criteria	Excellent (4 points)	Good (3 points)	Satisfactory (2 points)	Needs Improvement (1 points)	c o re
Degree to which student integra tes course reading s into classro om particip ation	- often cites from readings; - uses readings to support points; - often articulates "fit" of readings with topic at hand.	-occasionally cites from readings; - sometimes uses readings to support points; -occasionally articulates "fit" of readings with topic at hand .	-rarely able to cite from readings; - rarely uses readings to support points; - rarely articulates "fit" of readings with topic at hand	-unable to cite from readings; -cannot use readings to support points; cannot articulates "fit" of readings with topic at hand .	2
Interac tion/ particip ation in classro om discussi ons	-always a willing participant, responds frequently to questions; - routinely volunteers point of view .	- often a willing participant, - responds occasionally to questions; - occasionally volunteers point of view .	-rarely a willing participant, - rarely able to respond to questions; - rarely volunteers point of view .	 -never a willing participant., - never able to respond to questions; - never volunteers point of view . 	2
Interac tion/pa rticipati on in classro om learnin g activiti es	-always a willing participant; -acts appropriately during all role plays; - responds frequently to questions; - routinely volunteers point of view.	-often a willing participant; -acts appropriately during role plays; - responds occasionally to questions; -occasionally volunteers point of view.	-rarely a willing participantoccasionally acts inappropriately during role plays; - rarely able to respond to direct questions; -rarely volunteers point of view .	 -never a willing participant - often acts inappropriately during role plays;, - never able to respond to direct questions; - never volunteers point of view. 	3
Demon stratio n of profess ional attitud e and demea nor	-always demonstrates commitment through thorough preparation; - always arrives on time; - often solicits instructors' perspective outside class.	- rarely unprepared; rarely arrives late; - occasionally solicits instructors' perspective outside class.	-often unprepared; occasionally arrives late; - rarely solicits instructors' perspective outside class.	-rarely prepared; - often arrives late; -never solicits instructors' perspective outside class	2

Assessment Rubrics to be determined by the department. Add samples below.
