

Syllabus: Physical Pharmacy Practical (#1917011334) Second Semester 2021 /2022

COURSE INFORMATION	
Course Name: Physical Pharmacy Practical (blended education) Semester: Second Department: Pharmaceutics and Pharmaceutical Technology Faculty: Pharmaceutical Sciences	Course Code: 1917011334 Section: 2,7,8 Core Curriculum: 2019 Study Plan
Day(s) and Time(s): Sun : 11:00 – 13:00 Mon: 11:00 – 13:00 Wed: 11:00 – 13:00 Classroom: Pharmaceutical Sciences C318	Credit Hours: 1 Prerequisites: 131701333 synchronous AND 110103213
COURSE DESCRIPTION	
This physical pharmacy lab focuses on a number of areas of interest in the fields of pharmaceutical applications and principles of the physical pharmacy.	
DELIVERY METHODS	
The course will be delivered through a combination of active learning strategies. These will include: <ul style="list-style-type: none"> • PowerPoint lectures and active classroom-based discussion • Students divided in groups acting in practical lab work • Relevant films and documentaries • Video lectures • E-learning resources: e-reading assignments and practice quizzes through Moodle and Microsoft Team The course will be delivered through a combination of active learning strategies. These include: <ul style="list-style-type: none"> • Student have to prepare and study Record discussion on moodle & team before lab time. • In lab , Brief discussion well held to summarize the topics and discuss the procedure of experiment in details • Discuss how to do calculation and draw graph related to experiment • Video lectures of Experiment 	

FACULTY INFORMATION		
Name	Msc. Eqbal Abu-Alkebash	
Academic Title:	Assistant Teacher	
Office Location:	Third Floor	
Telephone Number:	Extension: 3421	
Email Address:	eqbal@hu.edu.jo	
Office Hours:	Sunday 13:00-14:00 Monday 8:00-9:00 Wednesday 8:00-9:00	

REFERENCES AND LEARNING RESOURCES

STUDENT LEARNING OUTCOMES MATRIX

Alignment matrix between the course objectives and the **course** learning outcomes (CLOs) with the **program** learning outcomes (PLOs).

This course tends to give student practical skills about the covered experiments. These experiments are related to manufacturing and quality evaluation of the pharmaceutical products.

Course Objectives

Upon completion of this course, the student should be able to perform the following objectives at the specified level:

1. Develop skills and techniques related to the actual use of equipment and instruments.
2. Demonstrate the effect of the physico-chemical properties phenomena on pharmaceutical systems.
3. Clarify theoretical concepts learned in physical pharmacy theoretical courses.
4. Be able to interpret scientific data and represent the data graphically
5. Be able to present and discuss the results and conclusions orally

Course Learning Outcomes (CLOs)

A-Knowledge and Understanding

A1. Concepts and Theories: Define and understand calculate the pH, quantity of ingredients of a buffer system and its buffer capacity as intermolecular forces and state of matter, solution of non-electrolytes and electrolytes, solubility and distribution, rheology, thermodynamics, buffered solutions, surface and interfacial phenomenon, chemical kinetics and stability, diffusion and dissolution.

A2. Contemporary Trends, Problems and Research: Apply information regarding physical principles in designing dosage forms

A3. Professional Responsibility: Understand and practice the different methods of complexation and its application in pharmacy, to develop knowledge of the fundamental physicochemical properties of different states of matter and asses their role and .applications in dosage forms

B-Subject-specific skills

B1. Problem solving skills: know the measurement units and understand their conversions, solve problem related to solubility of drug

B2. Modeling and Design: handle data in terms of graphical presentation and statistical analysis.

B3. Application of Methods and Tools: learn the use of basic instruments analysis and measurement instruments (Spectrophotometer, analytical balance, etc.), understand and apply the different method used for preparation of solutions.

C-Critical-Thinking Skills

C1. Analytic skills: interpret scientific data and make sound scientific conclusions.

C2. Strategic Thinking: develop the ability to suggest suitable techniques to evaluate some physicochemical properties of drug molecules and dosage forms , prepare a dosage form by choosing proper ingredients, additives and preparation method.

C3. Creative thinking and innovation: analyze the relationship between the physicochemical principles

ACADEMIC SUPPORT

It is The Hashemite University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their instructor to ensure that their individual needs are met. The University through its Special Need section will exert all efforts to accommodate for individual's needs.

Special Needs Section:

Tel: 00962-5-3903333

Extension: 4209

Location: Students Affairs Deanship/ Department of Student Welfare Services

Email: amalomoush@hu.edu.jo
amalomoush@staff.hu.edu.jo

COURSE REGULATIONS

Participation

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student should not miss more than 15% of the classes during a semester. *Those exceeding this limit of 15% will receive a failing grade regardless of their performance.* It is a student's responsibility to monitor the frequency of their own absences. **Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration. It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.**

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

On average, students need to spend 3 hrs of study and preparation weekly. At the beginning of the lectures, be on time and don't leave before the end of the lecture without an accepted excuse. **If you missed a class, it is your responsibility to find out about any announcements or assignments you have missed.** For any clarification, please communicate your instructor at her posted office hours or by appointment. Listen well to the lecture, if you have a question, ask your instructor. You will find the course material at the course team after the lecture.

Sharing of course materials is forbidden. No course material including, but not limited to, course outline, lecture hand-outs, videos, exams, and assignments may be shared online or with anyone outside the class. Any suspected unauthorized sharing of materials, will be reported to the university's Legal Affairs Office. If a student violates this restriction, it could lead to student misconduct procedures.

Plagiarism

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a student is expected not to engage in behaviours that compromise his/her own integrity as well as that of The Hashemite University.

Plagiarism includes the following examples, and it applies to all student assignments or submitted work:

- **Use of the work, ideas, images or words of someone else without his/her permission or reference to them.**
- **Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.**
- **Misrepresentation of the sources that were used.**

The instructor has the right to fail the coursework or deduct marks where plagiarism is detected

Late or Missed Assignments

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty. Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.
- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with University regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Missed Assessments

In all cases of assessment, students who fails to attend an exam on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a failure .grade for this part of the assessment

- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with university regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Cheating

Cheating, academic misconduct, fabrication and plagiarism will not be tolerated, and the university policy will be applied. Cheating policy: The participation, the commitment of cheating will lead to applying all following penalties together:

- Failing the subject, he/she cheated at
- Failing the other subjects taken in the same course
- Not allowed to register for the next semester
- The summer semester is not considered as a semester

Student Complaints Policy

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the students' handbook.

COURSE ASSESSMENT

Course Calendar and Assessment

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

Students will be graded through the following means of assessment:

Assessment	Grade Weighting	Deadline Assessment
Quiz	15%	<i>Every week</i>
Report	15%	Every week
Laboratory work evaluation	10%	Every week
Practical Midterm Exam	20%	Between 5 th and 6 th week
Theoretical Final Exam	40%	Between 13 & 14 week

Description of Exams

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions.

Quizzes: At beginning of each lab quizzes will be given based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Description of Exams

Test questions will predominately come from material presented in the lectures and the lectures themselves. Semester exams may be conducted during the regularly scheduled lecture period. Exam may consist of a combination of multiple choice, short answer, match, true and false, and/or descriptive questions.

No make-up exams will be given. Only documented absences will be considered as per HU guidelines. Make-up exams may be different from regular exams in content and format.

Grades are not negotiable and are awarded according to the following criteria:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
A		3.75
A-		3.50
B+	Very Good	3.25
B		3.00
B-		2.75
C+	Good	2.50
C		2.25
C-		2.00
D+	Pass	1.75
D		1.50
F	Fail	0.00
I	Incomplete	-

WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION

“Lecture hours and weeks are approximate and may change as needed”

Introduction , Safety precaution, grouping students and lab round		Week 1
Topic 1	Phase diagram/ Binary system phenol-water mixture	Week 2
Topic 2	Solubility curve for a ternary system of liquids	Week 3
Topic 3	Solubility enhancement by cosolvent	Week 4
Topic 4	Solubilization of salicylic acid by surfactants	Week 5
Topic 5	Buffers preparation	Week 6
Midterm Exam		Week 7
Topic 6	Determination of partition coefficient	Week 8
Topic 7	Determination of stability constant for I₂-KI complex	Week 9
Topic 8	Kinetics of Hydrolysis of aspirin	Week 10
Topic 9	Adsorption Isotherm	Week 11
Topic 10	Rheology	Week 12
Final Exams		Week 13

ASSESSMENT RUBRICS

Assessment Rubrics to be determined by the department. Add samples below.

Classroom Participation: Assessment Criteria					S c o r e
Criteria	Quality				
	Excellent (4 points)	Good (3 points)	Satisfactory (2 points)	Needs Improve ment (1 points)	
Degree to which student integrates course readings into classroom participation	<ul style="list-style-type: none">- often cites from readings;- uses readings to support points;- often articulates "fit" of readings with topic at hand.	<ul style="list-style-type: none">- occasionally cites from readings;- sometimes uses readings to support points;- occasionally articulates "fit" of readings with topic at hand .	<ul style="list-style-type: none">- rarely able to cite from readings;- rarely uses readings to support points;- rarely articulates "fit" of readings with topic at hand	<ul style="list-style-type: none">- unable to cite from readings;- cannot use readings to support points; cannot articulates "fit" of readings with topic at hand .	
Interaction / participation in classroom discussions	<ul style="list-style-type: none">- always a willing participant, responds frequently to questions;- routinely volunteers point of view .	<ul style="list-style-type: none">- often a willing participant,- responds occasionally to questions;- occasionally volunteers point of view .	<ul style="list-style-type: none">- rarely a willing participant,- rarely able to respond to questions;- rarely volunteers point of view .	<ul style="list-style-type: none">- never a willing participant.,- never able to respond to questions;- never volunteers point of view .	
Interaction /participation in classroom learning activities	<ul style="list-style-type: none">- always a willing participant;- acts appropriately during all role plays;- responds frequently to questions;- routinely volunteers point of view.	<ul style="list-style-type: none">- often a willing participant;- acts appropriately during role plays;- responds occasionally to questions;- occasionally volunteers point of view.	<ul style="list-style-type: none">- rarely a willing participant.- occasionally acts inappropriately during role plays;- rarely able to respond to direct questions;- rarely volunteers point of view .	<ul style="list-style-type: none">- never a willing participant- often acts inappropriately during role plays,;- never able to respond to direct questions;- never volunteers point of view.	
Demonstration of professional attitude and demeanor	<ul style="list-style-type: none">- always demonstrates commitment through thorough preparation;- always arrives on time;- often solicits instructors' perspective outside class.	<ul style="list-style-type: none">- rarely unprepared; rarely arrives late;- occasionally solicits instructors' perspective outside class .	<ul style="list-style-type: none">- often unprepared; occasionally arrives late;- rarely solicits instructors' perspective outside class .	<ul style="list-style-type: none">- rarely prepared;- often arrives late;- never solicits instructors' perspective outside class
