Syllabus

Digital Imaging (140508341) First Semester 2022 /2023

	COURSE INFORMATION						
Course Name: Semester: Department: Faculty:	Digital Imaging (2) First Department of Medical Imaging Applied Medical Sciences	Course Code: 140 Section: Analysis and Diagr Core Curriculum: Radiological and M	nosis of Medical Images				
Day(s) and Time(s Tuesday: 11:00-12: Classroom:	s): Sunday: 11:00-12:00 :00 312 ع ط	Credit Hours: Prerequisites:	3 (2 Theory +1 Lab) 140508212				

COURSE DESCRIPTION

This course provides an introduction into the essential principles of computed and digital radiography and their applications in the field of medical imaging. The advantages and disadvantages of digital over screen-film radiography will also be covered in this course. The basic requirements for digital radiography systems are explained. The common various x-ray digital detectors are illustrated. Furthermore, this course provides an insight and an understanding of different digital-based imaging modalities such as; digital fluoroscopy, digital mammography, computed radiography. In addition, this course covers the different digital image pre-processing and post-processing techniques used to improve the interpretation of different medical images. This

course also introduces the picture archiving and communication systems PACS system along with the hospital information system

HIS and the radiology information systems RIS.

DELIVERY METHODS

The course will be delivered through a combination of active learning strategies. These will include:

- PowerPoint lectures and active classroom based discussion.
- Collaborative learning through small groups acting in an interdisciplinary context.
- Relevant films and documentaries.
- Video lectures.
- E-learning resources: e-reading assignments and practice quizzes through Model and Microsoft Team.

FACULTY INFORMATION			
Name	Ali Mohammad Ibrahim Al-Radaideh		
Academic Title:	Associate Professor		
Office Location:	Applied Medical Sciences 3165		
Telephone Number:	5590		

Email Address:	ali.radaideh@hu.ed.jo	
Office Hours:	Monday/Wednesday: 12-1: Sunday: 10-11 Please send an e-mail (ali.radaideh@hu.edu.jo) to meet at any other time.	

REFERENCES AND LEARNING RESOURCES

Required Textbook:
There is no required textbook for purchase.

All compulsory weekly readings are available electronically on Microsoft Teams and "Dr-Ali Al-Radaideh_Teaching files" on Facebook group.

Suggested textbook for reading:

Digital Radiography: An introduction; Euclid Seeram; Delmar, Cengage Learning Digital radiography and PACS; Christi Carter, Beth Veale; Mosby/Elsevier

STUDENT LEARNING OUTCOMES MATRIX*

Core Curriculum Learning Outcomes	Program Learning Outcomes	Course Objectives	Course Student Learning Outcomes	Assessment Method
Think critically and creatively in a variety of methods in order to make diagnostic decisions and solve Communicate competently with others using oral and written English skills e problems.	and mammography and relate medical research KP3: Develop and implement protocols for medical imaging procedures, including patient positioning, patient care, proper exposure factor	Understanding the differences between screen-film and digital radiography. 2. Understanding the physical and technological principles of computed radiography. 3. Understanding the various types of digital-based imaging modalities 4. Understanding the standards of medical image archiving and communication among health centers. Understand the PACS, RIS, HIS.	 Know the main differences between screen-film and digital radiography. Know the limitations of conventional radiography. Explain the physical and technological principles of computed radiography. Know the advantages and disadvantages of computed radiography. Explain the physical and technological principles of digital radiography. Know the advantages and disadvantages of digital radiography. Know the different digital radiography. Know the use of digital medical image formats. Know the use of digital medical image formats. professional
identity and
responsibility with
patients, colleagues,
employers, and
society, with ethical
and professional
behaviors and
attitudes in the
practice of health
care.
CP4: Produces high
quality, diagnosable
medical images by
applying
positioning skills,
selecting technical
parameters, and
using radiation
protection.

ACADEMIC SUPPORT

It is The Hashemite University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course

activities or meet course requirements. Students with disabilities are encouraged to contact their Instructor to ensure that their individual needs are met. The University through its Special Need section will exert all efforts to accommodate for individual's needs.

COURSE REGULATIONS

Participation

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student should not miss more than 15% of the classes during a semester. Those exceeding this limit of 15% will receive a failing grade regardless of their performance. It is a student's responsibility to monitor the frequency of their own absences. Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration. It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

Plagiarism

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a student is expected not to engage in behaviours that compromise his/her own integrity as well as that of the Hashemite University.

Plagiarism includes the following examples and it applies to all student assignments or submitted work:

- Use of the work, ideas, images or words of someone else without his/her permission or reference to them.
- Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.
- Misrepresentation of the sources that were used.

The instructor has the right to fail the coursework or deduct marks where plagiarism is detected

Late or Missed Assignments

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty. Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.
- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with University regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Student Complaints Policy

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the students' handbook.

COURSE ASSESSMENT

Course Calendar and Assessment

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

Assessment	Grade Weighting	Deadline Assessment		
Exam 1	20%	06/11/2022 11:00 – 12:00		
Exam 2	20%	18/12/2022 11:00 – 12:00		
In course assessment	10%			
Final Exam	50%	To be arranged later		

Description of Exams

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions.

Homework:

Will be given for each chapter, while the chapter in progress you are supposed to work on them continuously and submit in next lecture when I finish the chapter.

You are also expected to work on in-chapter examples, self-tests and representative number of end of chapter problems. The answers of self-tests and end of chapter exercises are given at the end of the book.

Ouizzes:

Unannounced quizzes will be given during or/and at the end of each chapter based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Grades are not negotiable and are awarded according to the following criteria*:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
A		3.75
A-		3.50
B+	Very Good	3.25
В		3.00
В-		2.75
C+	Good	2.50
C		2.25
C-		2.00
D+	Pass	1.75
D	Pass	1.50
F	Fail	0.00
I	Incomplete	-

WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION "Lecture hours and weeks are approximate and may change as needed"

Part One:	Convectional Radiography: An Overview	Week 1- 2	4 lecture hours
Part Two:	Digital Image Processing Concepts	Week 3-5	6 lecture hours
Part Three:	Computed Radiography (CR)	Week 6-7	3 lecture hours
Part Four:	Digital Radiography (Indirect and direct DR)	Week 7-8	3 lecture hours
Part Five:	Digital Mammography	Week 9-10	4 lecture hours
Part Six:	Digital Fluoroscopy	Week 11-12	4 lecture hours
Part Seven:	Picture Archiving and Communication Systems P.	ACS Week 13-14	4 lecture hours
<u>Review</u>		<u>Week 15</u>	
University Exam	ns .	<u>Week 16</u>	

ASSESSMENT RUBRICS

	Classroom I	Participation: Assessm	ent Criteria			
		Qua	ality		S	
Criteria	Excellent (5 points)	Good (4 points)	Satisfactory (3 points)	Needs Improvement (2 points)	core	
Degree to which student integrates course readings into classroom participation	often cites from readings; uses readings to support points; - often articulates "fit" of readings with topic at hand.	-occasionally cites from readings; - sometimes uses readings to support points; -occasionally articulates "fit" of readings with topic at hand.	-rarely able to cite from readings; - rarely uses readings to support points; - rarely articulates "fit" of readings with topic at hand	-unable to cite from readings; -cannot use readings to support points; cannot articulates "fit" of readings with topic at hand.		
Interaction/ participation in classroom discussions	-always a willing participant, responds frequently to questions; - routinely volunteers point of view.	-often a willing participant, - responds occasionally to questions; - occasionally volunteers point of view .	-rarely a willing participant, - rarely able to respond to questions; - rarely volunteers point of view .	-never a willing participant., - never able to respond to questions; - never volunteers point of view .		
Interaction/partici pation in classroom learning activities	-always a willing participant; -acts appropriately during all role plays; - responds frequently to questions; - routinely volunteers point of view.	-often a willing participant; -acts	-rarely a willing participantoccasionally acts inappropriately during role plays; - rarely able to respond to direct questions; -rarely volunteers point of view .	-never a willing participant - often acts inappropriately during role plays;, - never able to respond to direct questions; - never volunteers point of view.		

Demonstration of professional attitude and demeanor	demonstrates commitment through thorough	- occasionally solicits instructors' perspective outside class.	-often unprepared; occasionally arrives late; - rarely solicits instructors' perspective outside class.	-rarely prepared; - often arrives late; -never solicits instructors' perspective outside class

Language	 Spelling, grammar, usage, and punctuation are accurate Fluent and effective 	 There are minor problems in spelling, grammar, usage, and/or punctuation. 	 There are persistent errors in spelling, grammar, usage, and/or punctuation. Less or not fluent and effective.
Delivery	 Ideas were communicated with enthusiasm, proper voice projection and clear delivery. There was sufficient eye contact with audience. There were sufficient use of other non-verbal communication skills. Appropriate delivery pace was used. 	 There was some difficulty communicating ideas due to voice projection, lack of preparation, incomplete work, and/or insufficient eye contact. Insufficient use of nonverbal communication skills. Delivery pace is somewhat appropriate. 	 There was great difficulty communicating ideas due to poor voice projection, lack of preparation, incomplete work, and/or little or no eye contact. No use of non verbal communication skills. Inappropriate delivery pace was used.
Interaction with Audience	 Answers to questions are coherent and complete. 	 Most answers to questions are coherent and complete. 	Answers to questions are neither coherent nor complete.
	 Answers demonstrate confidence and extensive knowledge. 	 Answers somehow demonstrate confidence and extensive knowledge. 	Is tentative or unclear in responses.
