Principles of Radiological Diagnosis (140508443)

Second Semester 2021 /2022

	COURSE INFORMATION							
Course Name:	Principles of Radiological Diagnosis	Course Code: 140508443						
Semester:	Second	Section:						
Department:	Department of Medical Imaging	Analysis and Diagnosis of Medical Images						
Faculty:	Applied Medical Sciences	Core Curriculum:						
		Radiological and Medical Imaging						
Day(s) and Tim	e(s): Monday: 11:00-12:30	Credit Hours: 3						
Wednesday: 11:00-12:30		Prerequisites: 140508433						
Classroom:	Nursing 202							

COURSE DESCRIPTION

This course helps the student with identifying the most common diseases on different medical imaging modalities including general x-ray, fluoroscopy, mammography, computed tomography, magnetic resonance imaging, ultra-sound, SPECT, PET and PET-CT. In addition, the course teaches the student how to choose the best imaging modality to diagnose the disease radiologically. The differences in radiological appearance of the most common diseases on different types of medical images will also be covered in this course.

DELIVERY METHODS

The course will be delivered through a combination of active learning strategies. These will include:

- PowerPoint lectures and active classroom based discussion.
- Collaborative learning through small groups acting in an interdisciplinary context.
- Relevant films and documentaries.
- Video lectures.
- E-learning resources: e-reading assignments and practice quizzes through Model and Microsoft Team.

Name Ali Mohammad Ibrahim Al-Radaideh Academic Title: Associate Professor Office Location: Applied Medical Sciences 3165 Telephone Number: 5590 Email Address: ali.radaideh@hu.ed.jo Office Hours: Sunday/Tuesday: 12:30-1:30 Monday: 12:30-1:30 Please send an e-mail (ali.radaideh@hu.edu.jo) to meet at any other time.

REFERENCES AND LEARNING RESOURCES

Required Textbook:

There is no required textbook for purchase.

All compulsory weekly readings are available electronically on Microsoft Teams and "Dr-Ali Al-Radaideh_Teaching files" on Facebook group.

Suggested textbook for reading:

- Comprehensive radiographic pathology, by Ronal L. Eisenberg and Nancy M. Johnson, Mosby 2007
- Basic Bone Radiology, by Griffiths, Harry.. Norwalk, Appleton century-Crofts

ACADEMIC SUPPORT

It is the Hashemite University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their Instructor to ensure that their individual needs are met. The University through its special need section will exert all efforts to accommodate for individual's needs.

COURSE REGULATIONS

Participation

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student <u>should not miss more than 15%</u> of the classes during a semester. *Those exceeding this limit of 15% will receive a failing grade regardless of their performance*. It is a student's responsibility to monitor the frequency of their own absences. **Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration.** It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

Plagiarism

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a student is expected not to engage in behaviours that compromise his/her own integrity as well as that of the Hashemite University.

Plagiarism includes the following examples and it applies to all student assignments or submitted work:

- Use of the work, ideas, images or words of someone else without his/her permission or reference to them.
- Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.
- Misrepresentation of the sources that were used.

The instructor has the right to fail the coursework or deduct marks where plagiarism is detected

Late or Missed Assignments

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty. Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.
- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with University regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Student Complaints Policy

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the students' handbook.

COURSE ASSESSMENT

Course Calendar and Assessment

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

Assessment	Grade Weighting	Deadline Assessment
Exam 1	25%	13/4/2022 11:00 – 12:00
Exam 2	25%	18/5/2022 11:00 – 12:00
Quizzes	0%	
Homework/Participation	0%	
Final Exam	50%	To be announced by the registration office

Description of Exams

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions.

Homework:

Will be given for each chapter, while the chapter in progress you are supposed to work on them continuously and submit in next lecture when I finish the chapter.

You are also expected to work on in-chapter examples, self-tests and representative number of end of chapter problems. The answers of self-tests and end of chapter exercises are given at the end of the book.

Ouizzes:

Unannounced quizzes will be given during or/and at the end of each chapter based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Grades are not negotiable and are awarded according to the following criteria*:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
A		3.75
A-		3.50
B+	Very Good	3.25
В		3.00
B-		2.75
C+	Good	2.50
C		2.25
C-		2.00
D+	Pass	1.75
D	Pass	1.50
F	Fail	0.00

WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION "Lecture hours and weeks are approximate and may change as needed"
