<b>17. Course Description:</b>
<p>This course is designed to provide nursing students with essential knowledge and skills about the psychological and social aspects of nursing care. This course introduces students to the basic knowledge requirements for their professional and personal success related to nursing care across the wellness continuum for client systems across the lifespan. It also provides students with different strategies for systematic assessment, developing competency in selected psychosocial nursing interventions, and evaluating outcomes. Role development as a psychosocial nurse with attention to the needs of diverse populations is incorporated into this course. This course helps nursing students meet the challenges of providing care to individuals with various psychosocial needs. It offers special attention to psychological and sociocultural-spiritual issues throughout an individual's life span.</p>

#### **18. Course general Objective and Outcomes:**

## A. General objective:

The overall objective of this courses is to provide students with the knowledge and skills necessary to provide comprehensive care to patients related to stress and coping, crisis intervention, suicide clients, and grief and loss, abuse related to domestics, children, and dependent adults among others. In addition, the course will help students recognize foundation knowledge about concepts of personality development, complementary and psychosocial therapies, stress responses, and stress management. The course also promotes students to apply knowledge to problems with anxiety, anger, aggression, and violence; affect and mood; substance abuse; pain; family violence; and spiritual distress. By the end of this course, students will demonstrate the ability to assist clients in maintaining psychosocial integrity using the nursing process, as well as analyze interpersonal skills to meet the patient's psychosocial system needs, which are influenced by the interaction of the physical, social, cultural, and spiritual environments to maximize mental health and wellness. Thus, students will be able to develop these competencies and be equipped to handle various patient care situations.

## 23-Course Policies

### **Code of Ethics:**

- Academic misconduct is defined as the use of any dishonest or deceitful means to gain some academic advantage or benefit. This can take many forms, including but not limited to, the following:
  - I. **Examinations**
    - a. Copying, or attempting to copy, from another student's work, or permitting another student to copy from your work.
    - b. Using notes of whatever kind in the formation of answers in a closed book examination.
    - c. Impersonation of another student in an examination, seminar or other form of presentation.
    - d. Disrupting the conduct of examinations by illegally obtaining access to examination papers or answers, and/or distribution of this material to others.
  - II. **Assignments**
    - a. *Copying:* Copying another person's answers in a paper, assignment, essay, etc. and presenting it as if it were the student's own work.
    - b. *Collusion:* Incorporating material into your work that was a results of working with others on an assignment which is intended to be an individual assignment.
    - c. *Plagiarism:* Using the thoughts, ideas, words, results, etc., of another person in a written assignment, without recognizing the source, as if it were the student's own work.

- d. *Falsification*: altering data or Inventing data that have been obtained from legitimate sources

### III. **Forging University Documents**

- Submitting or using forged academic documents or forged signatures for the purpose of personal gain or fraud. If a student commits an act of academic misconduct, whether defined above or of different nature, it may be documented and then one or more of the following penalties may be applied:
  - a. Written warning.
  - b. Deducting of an assignment or examination.
  - c. An 'Zero' grade given to the assignment or examination.
  - d. An 'F' grade given to the course.
  - e. Suspension from the University for a Specified Period.
  - f. Dismissal from the University.

### **Attendance, Preparation, and Participation Policy**

- A. It is the student's responsibility to attend all classes. Per the Hashemite University's rules and regulations, the student's total absences must not exceed 15% of the total class hours.
- B. Failure to attend classes without prior approval for whatever reason is considered as part of the percentage missed.
- C. Students bear full responsibility for checking their own attendance record. Attendance records are kept.
- D. Compulsory attendance is required for all in-course assessment and final examination. The examination will not be postponed for any student without an emergency reason or approved medical certificates.
- E. Compulsory participation in discussions, written assignments, use of case scenarios and e-learning. Moodle) is expected to complete the course requirements.
- F. Students should interact with the teacher on Moodle for discussion related to the content taught in the classroom. Students should register for the course work on Moodle and use it frequently for the teaching learning sessions and instructions. The students should actively involve in these interactive classroom and online learning sessions.
- G. Absenteeism: Students who remain absent should meet the Course Co-ordinator. Those who are sick will produce a medical certificate certified by the University's Medical Center and submit it.

### **Clinical Policies (if applicable)**

1. **Attendance:** students are expected to attend all classes and practice days. If a student cannot attend a class session or practice day, the instructor must be notified prior to that. Per the Hashemite University's rules and regulations, the student's total absences must not exceed 15% of the total class hours. This is equal to one day clinical. Students are expected to take written and clinical exams when scheduled. If a student cannot attend a testing session, the faculty must be notified prior to the scheduled examination. Please refer to the Hashemite University's Student Handbook for further explanation. Also please note that it is a new university policy that if a student failed to take an examination as scheduled, there will be one

make-up examination. A committee of three examiners will present the students with a set of oral and written essay type questions. Only students with acceptable reasons (i.e., urgent medical condition approved by the University Health Center, death of a first-degree relative, etc.) for absence will have the opportunity for a make-up examination.

2. **Practice:** There is a set of guidelines for practical training that will also be provided to each student on a separate sheet to keep with them at hospitals. These guidelines include:

A. Practical training starts at 8:00 and ends at 2:00.

B. The student has to manage his/her own transportation to the hospital except for those who will be trained in specific areas (will be announced), a university bus will be provided.

C. The student has to wear the specified uniform and shoes at all times while at the hospital. The uniform must be clean and ironed properly.

D. All students have to maintain a professional appearance. This includes shaving for male students who do not grow their beards, and a proper haircut, and tied hair for female students, and for those who wear a scarf, it should not be left dangling.

E. It is the student's responsibility to maintain good personal hygiene.

F. Jean pants are not allowed as well as colored scarves other than cream or white.

G. Students are not allowed to chew gum or smoke in the clinical areas.

H. Students should have their break time as scheduled and shall not exceed that.

I. The following items are prohibited at clinical training: bracelets, rings other than the wedding ring, high heels or sandals, nail polish, long nails, and improper make-up.

J. Every student must have the following on a clinical day: a pocket-size note book, a pen, scissors, a torch, and a stethoscope.

K. The student has to inform either the nurse in-charge or the instructor when leaving his/her assigned clinical area.

L. Clinical seminar and case-studies will be started and ended according to the schedule. Students are expected to report to these learning activities on time.

M. Students are expected to use proper communication skills and to be cooperative with their instructors, colleagues, and other health team members.

N. **Students Must NOT perform the following:**

1. Perform venipuncture.
