

Syllabus* : Course Title and Code (110102141)
Second Semester 2021 /2022

COURSE INFORMATION	
Course Title : Physics of Materials and Heat Semester: Second Department: Physic Faculty: Science	Course Code: 110102141 Section: 1 Core Curriculum: B. Sc. of Science in Physics
Day(s) and Time(s): Sun, Tue, Thu 9:00-10:00 Am Classroom: Phy Room # 128	Credit Hours: 3 Prerequisites: 110102102
COURSE DESCRIPTION	
This course introduces students to basic concepts in thermal physics and material physics. Topics covered in this course include temperature, internal energy, heat, entropy, first and second laws of thermodynamics, kinetic theory of gases, energy transfer by conduction, convection, and radiation, atomic structure, electron configurations in atoms, periodic table, bonding in solids, types of primary and secondary interatomic bonds, crystalline solids, crystal structure and unit cell, simple three dimensional crystal structures (SC, BCC, and FCC), Miller indices, x-ray diffraction and Bragg's law	
DELIVERY METHODS	
The course will be delivered through a combination of active learning strategies. These will include: <ul style="list-style-type: none"> ● PowerPoint lectures and active classroom based discussion ● Collaborative learning through small groups acting in an interdisciplinary context. ● Relevant films and documentaries ● Video lectures ● E-learning resources: e-reading assignments and practice quizzes through Model and Microsoft Team 	

FACULTY INFORMATION	
Name	
Academic Title:	Associate Professor
Office Location:	Physics Building, Room # 107
Telephone Number:	
Email Address:	gassem@hu.edu.jo

Office Hours:	Sun, Tue, Thu 10-11 Am <i>Please send an e-mail (gassem@hu.edu.jo) to meet at any other time.</i>
----------------------	---

REFERENCES AND LEARNING RESOURCES	
Required Textbook:	
Textbook(1): Physics for Scientists and Engineers with Modern Physics, Raymond A. Serway and John W. Jewett, Thomson, BROOKS/COLE, 2014, 9 th edition	
Textbook(2): Materials Science and Engineering AN INTRODUCTION, W. D. Callister and D. G. Rethwisch, Thomson, BROOKS/COLE, 2014, 9 th edition	
Suggested Additional Resources:	
(1): Fundamentals of Thermodynamics, 8th edition by Claus Borgnakke and Richard E. Sonntag (Wiley, 2012)	
(2): An Introduction to Thermal Physics, First Edition by Daniel V. Schroeder (Addison-Wesley, 2000)	
(3): Fundamentals of Physics by David Halliday, Robert Resnick, and Jearl Walker, 10 th 10 th Edition, John Wiley and Sons, 2013.

STUDENT LEARNING OUTCOMES MATRIX*				
Core Curriculum Learning Outcomes	Program Learning Outcomes	Course Objectives	Course Student Learning Outcomes	Assessment Method
CC-LO-5 Think critically and creatively in a variety of methods in order to make decisions and solve problems.	PHYS-LO-1: Apply critical thinking and demonstrate problem-solving skills in two or more of the major fields of physics.	1. Develop an understanding of the basic principles of the major branches of physics.	1. Develop a clear understanding of basic physical phenomena in thermal physics and materials science as an integral part of the student's overall education	<ul style="list-style-type: none"> ● Exams ● Quizzes ● "On-line" reading assignments ● homework assignments
		2. Obtain a thorough foundation in the various fields of physics.	2. Explain natural phenomena using simple physics concepts.	<ul style="list-style-type: none"> ● Exams ● Quizzes ● "On-line" reading assignments
		3. Learn to solve physics problems using basic mathematics.	3. Use algebra, trigonometry, and basic calculus, in solving problems in thermal physics and materials science.	<ul style="list-style-type: none"> ● Exams ● Quizzes ● "On-line" reading assignments ● homework assignments
		4. Develop an understanding of models and theories of physics	4.1 Describe the electronic structure of the elements using quantum numbers, orbital diagrams and electron configurations.	<ul style="list-style-type: none"> ● Exams ● Quizzes ● "On-line" reading

			4.2 Provide detailed and accurate description of first and second laws of thermodynamics, thermal equilibrium, reversible and irreversible processes, heat engines, microstates and macrostates, entropy and heat capacities, phase transformations, unit cell, simple crystal structures, x-ray diffraction, bonding in solids	<ul style="list-style-type: none"> assignments homework assignments
.CC-LO-4. Communicate competently with others using oral and written English skills	PHYS-LO-4: Use modern literature search methods to obtain information about physics topics and write reports.	5. Obtain an understanding of the role of physics in other disciplines, and its importance in society.	5. Acquire the ability to learn independently; articulate the importance of independent learning for future professional development	<ul style="list-style-type: none"> “On-line” reading assignments Term project
CC-LO-6. Demonstrate competency in the use of research skills and various information sources.	PHYS-LO-6: Communicate results to physicists and non-physicists.	6. Acquire positive attitudes towards further studies in physics and towards the application of physics in other disciplines.	6. Develop a positive attitude towards physics and its applications in society, and towards further study and lifelong learning.	<ul style="list-style-type: none"> Term project
CC-LO-7. Identify the general concepts of humanities and natural sciences in a manner that reveals their value in life.

ACADEMIC SUPPORT

It is The Hashemite University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their Instructor to ensure that their individual needs are met. The University through its Special Need section will exert all efforts to accommodate for individual's needs.

Special Needs Section: N.A

Email:

COURSE REGULATIONS

Participation

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student should not miss more than 15% of the classes during a semester. *Those exceeding this limit of 15% will receive a failing grade regardless of their performance.* It is a student's responsibility to monitor the frequency of their own absences. **Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration. It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.**

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

Plagiarism

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a student is expected not to engage in behaviours that compromise his/her own integrity as well as that of the Hashemite University.

Plagiarism includes the following examples and it applies to all student assignments or submitted work:

- **Use of the work, ideas, images or words of someone else without his/her permission or reference to them.**
- **Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.**
- **Misrepresentation of the sources that were used.**

The instructor has the right to fail the coursework or deduct marks where plagiarism is detected

Late or Missed Assignments

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty. Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.
- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with University regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Student Complaints Policy

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the students’ handbook.

COURSE ASSESSMENT

Course Calendar and Assessment

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

Assessment	Grade Weighting	Deadline Assessment
e.g. Exam 1	e.g. 30%	Add date/time
e.g. Exam 2	e.g. 30%	Add date/time
e.g. Quizzes	-	-
e.g. Homework	-	-
e.g. Final Exam (3)	e.g. 40%	Add date/time

Description of Exams

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions.

Homework: Will be given for each chapter, while the chapter in progress you are supposed to work on them continuously and submit in next lecture when I finish the chapter.

You are also expected to work on in-chapter examples, self-tests and representative number of end of chapter problems. The answers of self-tests and end of chapter exercises are given at the end of the book.

Quizzes: Unannounced quizzes will be given during or/and at the end of each chapter based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Grades are not negotiable and are awarded according to the following criteria*:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
A		3.75
A-		3.50
B+	Very Good	3.25
B		3.00
B-		2.75
C+	Good	2.50
C		2.25
C-		2.00
D+	Pass	1.75
D	Pass	1.50
F	Fail	0.00
I	Incomplete	-

* يمكن التعديل حسب طبيعة البرنامج (بكالوريوس/دراسات عليا)

WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION

مثال على التوزيع : مساق الكيمياء العامة 101

"Lecture hours and weeks are approximate and may change as needed"

<u>Textbook (1)</u>			
<u>Chapter</u>	<u>Topic</u>	<u>Week</u>	<u>Lecture hours</u>
Chapter 19	Temperature	Week 1-3	9 lecture hours
19.1	Temperature and the Zeroth Law of thermodynamics		
19.2	Thermometers and the Celsius temperature Scale		
19.3	The Constant-Volume Gas thermometer and the Absolute temperature Scale		
19.4	Thermal Expansion of Solids and Liquids		
19.5	Macroscopic Description of an Ideal Gas		
Suggested problems: 7,9,17,23,26,30,40			
Chapter 20	The First Law of thermodynamics	Week 4-5	6 lecture hours
20.1	Heat and Internal Energy		
20.2	Specific Heat and Calorimetry		
20.3	Latent Heat		

20.4	Work and Heat in Thermodynamic Processes		
20.5	The First Law of Thermodynamics		
20.6	Some Applications of the First Law of Thermodynamics		
20.7	Energy Transfer Mechanisms in Thermal Processes		
Suggested problems: 4,13,15,25,27,28,30,34, 43,53			
First Exam			
<u>Chapter 21</u>	<u>The Kinetic theory of Gases</u>	<u>Week 6-7</u>	<u>6 lecture hours</u>
21.1	Molecular Model of an Ideal Gas		
21.2	Molar Specific Heat of an Ideal Gas		
21.3	The Equipartition of Energy		
21.4	Adiabatic Processes for an Ideal Gas		
21.5	Distribution of Molecular Speeds		
Suggested problems: 1,3,14,15,17,23,25,26,33,36,37			
Second Exam			
<u>Chapter 22</u>	<u>Heat engines, entropy, and the Second Law of thermodynamics</u>	<u>Week 8-10</u>	<u>9 lecture hours</u>
22.1	Heat Engines and the Second Law of Thermodynamics		
22.2	Heat Pumps and Refrigerators		
22.3	Reversible and Irreversible Processes		
22.4	The Carnot Engine		
22.5	Gasoline and Diesel Engines		
22.6	Entropy		
22.7	Changes in Entropy for Thermodynamic Systems		
22.8	Entropy and the Second Law		
Suggested problems: 1,10,13,17,20,31,43,44,45, 49,50			
Second Exam			
<u>Textbook (2)</u>			
<u>Chapter 2</u>	<u>Atomic Structure and Interatomic Bonding</u>	<u>Week 11-12</u>	<u>6 lecture hours</u>
2.1	Introduction (atomic structure)		
2.2	Fundamental Concepts		
2.3	Electrons in Atoms		
2.4	The Periodic Table		
2.5	Bonding Forces and Energies		
2.6	Primary Interatomic Bonds		
2.7	Secondary Bonding or van der Waals Bonding		
Suggested problems: 6,8,9,11,13,14,15,16,17,18, 27			
<u>Chapter 3</u>	<u>The Structure of Crystalline Solids</u>	<u>Week 13-1</u>	<u>6 lecture hours</u>
3.1	Introduction (crystal structure)		
3.2	Fundamental Concepts		
3.3	Unit Cells		
3.4	Metallic Crystal Structures		
3.5	Density Computations		
3.7	Crystal Systems		
3.9	Crystallographic Directions		
3.10	Crystallographic Planes and Miller indices		

3.16 X-Ray Diffraction: Determination of Crystal Structures		
Suggested problems: 1,7,9,15,17,31, 35,46,47,69, 72,73		
<u>Review</u>	<u>Week 15</u>	<u>3 lecture hours</u>
University Exams	<u>Week 16</u>	

ASSESSMENT RUBRICS

Classroom Participation: Assessment Criteria					S c o r e
Criteria	Quality				
	Excellent (4 points)	Good (3 points)	Satisfactory (2 points)	Needs Improvement (1 points)	
Degree to which student integrates course readings into classroom participation	- often cites from readings; - uses readings to support points; - often articulates "fit" of readings with topic at hand.	-occasionally cites from readings; - sometimes uses readings to support points; -occasionally articulates "fit" of readings with topic at hand .	-rarely able to cite from readings; - rarely uses readings to support points; - rarely articulates "fit" of readings with topic at hand	-unable to cite from readings; -cannot use readings to support points; cannot articulates "fit" of readings with topic at hand .	2
Interaction/participation in classroom discussions	-always a willing participant, responds frequently to questions; - routinely volunteers point of view .	-often a willing participant, - responds occasionally to questions; - occasionally volunteers point of view .	-rarely a willing participant, - rarely able to respond to questions; - rarely volunteers point of view .	-never a willing participant., - never able to respond to questions; - never volunteers point of view .	2
Interaction/participation in classroom learning activities	-always a willing participant; -acts appropriately during all role plays; - responds frequently to questions; - routinely volunteers point of view.	-often a willing participant; -acts appropriately during role plays; - responds occasionally to questions; -occasionally volunteers point of view.	-rarely a willing participant. -occasionally acts inappropriately during role plays; - rarely able to respond to direct questions; -rarely volunteers point of view .	-never a willing participant - often acts inappropriately during role plays;; - never able to respond to direct questions; - never volunteers point of view.	3

Demonstration of professional attitude and demeanor	-always demonstrates commitment through thorough preparation; - always arrives on time; - often solicits instructors' perspective outside class.	- rarely unprepared; rarely arrives late; - occasionally solicits instructors' perspective outside class .	-often unprepared; occasionally arrives late; - rarely solicits instructors' perspective outside class .	-rarely prepared; - often arrives late; -never solicits instructors' perspective outside class	2
