

**Syllabus* : Mathematical Physics (110102281)****Summer Semester 2021/2022**

COURSE INFORMATION	
Course Name: Mathematical Physics Semester: Summer Semester Department: Department of Physics Faculty: Faculty of Science	Course Code: 110102281 Section: 1 Core Curriculum: Compulsory
Day(s) and Time(s): S, M, T, W: 8:00-9:10 Classroom:	Credit Hours: 3 Prerequisites: None
COURSE DESCRIPTION	
<p>This course is particularly intended for the student with a year (or a year and a half) of calculus who wants to develop, in a short time, a basic competence in each of the many areas of mathematics needed in junior to senior-graduate courses in physics, chemistry, and engineering. Thus, it is intended to be accessible to sophomores (or freshmen with AP calculus from high school). It may also be used effectively by a more advanced student to review half-forgotten topics or learn new ones, either by independent study or in a class. Although the course was developed especially for students of the physical sciences, students in any field (say mathematics or mathematics for teaching) may find it useful to survey many topics or to obtain some knowledge of areas they do not have time to study in depth.</p> <p>The question of proper mathematical training for students in the physical sciences is of concern to both mathematicians and those who use mathematics in applications.</p>	

DELIVERY METHODS

The course will be delivered through a combination of active learning strategies. These will include:

- PowerPoint lectures and active classroom-based discussion.
- Collaborative learning through small groups acting in an interdisciplinary context.
- E-learning resources: e-reading assignments and practice quizzes.

FACULTY INFORMATION

Name	Adel A. Shaheen
Academic Title:	Associate Professor
Office Location:	Physics Building, room 213
Telephone Number:	4917
Email Address:	adel_shaheen@hu.edu.jo
Office Hours:	S, M, T, W 9:30-10:30 <i>Please send an e-mail (adel_shaheen@hu.edu.jo) to meet at any other time.</i>

REFERENCES AND LEARNING RESOURCES

Required Textbook: *“Mathematical Methods in the Physical Sciences”* by Mary Boas, 3th edition, Wiley, Inc, 2006.

Suggested Additional Resources:

- **Mathematical Methods for Physicists** by G. Arfken.
- **Mathematical Methods** by M.C. Potter and J. Goldberg.
- **Introduction to mathematical physics** by N. Laham.

STUDENT LEARNING OUTCOMES MATRIX*

Core Curriculum Learning Outcomes	Program Learning Outcomes	Course Objectives	Course Student Learning Outcomes	Assessment Method
CC-LO-1 Think critically and creatively in a variety of methods to make decisions and solve problems.	PHYS-LO-1: Apply critical thinking and demonstrate problem-solving skills in two or more of the major fields of Physics.	Training the students how to think about the physical phenomena in mathematical terms.	an ability to apply knowledge of mathematics, science, and applied sciences	<ul style="list-style-type: none"> Exams Quizzes “On-line” reading assignments homework assignments
		Developing an intuitive feeling for the precise mathematical formulation of physical problems and for the physical interpretation of the mathematical solutions.	an ability to identify and solve applied sciences problems and interpret the result.	<ul style="list-style-type: none"> Exams Quizzes “On-line” reading assignments
CC-LO-2. Understanding of core knowledge in physics, including classical and modern physics.	PHYS-LO-2: Apply the basic physical concepts of classical physics to more advanced problems.	Be able to deal with real problems using analytical methods.	To show ability to think about the physical phenomena in mathematical terms.	<ul style="list-style-type: none"> Exams Quizzes “On-line” reading assignments homework assignments
CC-LO-3. Communicate competently with others using oral and written English skills	PHYS-LO-3: Use modern literature search methods to obtain information about physics topics and write reports.	Obtain an understanding of the role of physics in other disciplines, and its importance in society.	Demonstrate written and oral communication skills in communicating physics-related topics.	<ul style="list-style-type: none"> “On-line” reading assignments Term project
CC-LO-4. Demonstrate competency in the use of research skills and various information sources.	PHYS-LO-4: Communicate results to physicist and non- physicist.	Acquire positive attitudes towards further studies in physics and towards the application of physics in other disciplines.	Develop a positive attitude towards physics and its applications in society, and towards further study and lifelong learning.	<ul style="list-style-type: none"> Term project

ACADEMIC SUPPORT

It is The Hashemite University policy to provide educational opportunities that ensure fair, appropriate, and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their instructor to ensure that their individual needs are met. The University through its Special Need section will exert all efforts to accommodate for individual's needs.

COURSE REGULATIONS

Participation

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student should not miss more than 15% of the classes during a semester. *Those exceeding this limit of 15% will receive a failing grade regardless of their performance.* It is a student's responsibility to monitor the frequency of their own absences. **Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration. It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.**

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

Plagiarism

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a

student is expected not to engage in behaviours that compromise his/her own integrity as well as that of the Hashemite University.

Plagiarism includes the following examples, and it applies to all student assignments or submitted work:

- **Use of the work, ideas, images, or words of someone else without his/her permission or reference to them.**
- **Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.**
- **Misrepresentation of the sources that were used.**

The instructor has the right to fail the coursework or deduct marks where plagiarism is detected

Late or Missed Assignments

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty. Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.
- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with university regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

Student

Complaints

Policy

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For

more information about the policy and processes related to this policy, you may refer to the students' handbook.

COURSE ASSESSMENT

Course Calendar and Assessment

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

Assessment	Grade Weighting	Deadline Assessment
Exam 1	25%	8/8/2020
Exam 2	25%	22/8/2020
HomeWorks and quizzes	10%	
Final Exam	40%	TBA

Description of Exams

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions.

Homework: Will be given for each chapter, while the chapter in progress you are supposed to work on them continuously and submit in next lecture when I finish the chapter.

You are also expected to work on in-chapter examples, self-tests and representative number of ends of chapter problems. The answers of self-tests and end of chapter exercises are given at the end of the book.

Quizzes: Unannounced quizzes will be given during or/and at the end of each chapter based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Grades are not negotiable and are awarded according to the following criteria*:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
A		3.75
A-		3.50
B+	Very Good	3.25
B		3.00
B-		2.75
C+	Good	2.50
C	Fail	2.25
I	Incomplete	-

WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION

“Lecture hours and weeks are approximate and may change as needed”

Topics	No.of Weeks	Contact Hours*
Chapter One: Infinite series	1	3
Chapter Two: Complex Numbers	2	6
Chapter Three: Linear algebra	2	6
Chapter Five: Multiple integrals	3	9
Chapter Six: Vector analysis	2	6
Chapter seven: Fourier series	3	9
Chapter Eight: Differential equations	2	6
Total	15	45

Assessment Rubrics to be determined by the department.

Classroom Participation: Assessment Criteria					S C O R E
Criteria	Quality				
	Excellent (4 points)	Good (3 points)	Satisfactory (2 points)	Needs Improvement (1 points)	
Degree to which student integrates course readings into classroom participation	<ul style="list-style-type: none"> - often cites from readings; - uses readings to support points; - often articulates "fit" of readings with topic at hand. 	<ul style="list-style-type: none"> - occasionally cites from readings; - sometimes uses readings to support points; - occasionally articulates "fit" of readings with topic at hand . 	<ul style="list-style-type: none"> - rarely able to cite from readings; - rarely uses readings to support points; - rarely articulates "fit" of readings with topic at hand 	<ul style="list-style-type: none"> - unable to cite from readings; - cannot use readings to support points; - cannot articulates "fit" of readings with topic at hand . 	
Interaction / participation in classroom discussions	<ul style="list-style-type: none"> - always a willing participant, responds frequently to questions; - routinely volunteers point of view . 	<ul style="list-style-type: none"> - often a willing participant, - responds occasionally to questions; - occasionally volunteers point of view . 	<ul style="list-style-type: none"> - rarely a willing participant, - rarely able to respond to questions; - rarely volunteers point of view . 	<ul style="list-style-type: none"> - never a willing participant., - never able to respond to questions; - never volunteers point of view . 	
Interaction /participation in classroom learning activities	<ul style="list-style-type: none"> - always a willing participant; - acts appropriately during all role plays; - responds frequently to questions; - routinely volunteers point of view. 	<ul style="list-style-type: none"> - often a willing participant; - acts appropriately during role plays; - responds occasionally to questions; - occasionally volunteers point of view. 	<ul style="list-style-type: none"> - rarely a willing participant. - occasionally acts inappropriately during role plays; - rarely able to respond to direct questions; - rarely volunteers point of view . 	<ul style="list-style-type: none"> - never a willing participant - often acts inappropriately during role plays,; - never able to respond to direct questions; - never volunteers point of view. 	
Demonstration of professional attitude and demeanor	<ul style="list-style-type: none"> - always demonstrates commitment through thorough preparation; - always arrives on time; - often solicits instructors' perspective outside class. 	<ul style="list-style-type: none"> - rarely unprepared; - rarely arrives late; - occasionally solicits instructors' perspective outside class . 	<ul style="list-style-type: none"> - often unprepared; - occasionally arrives late; - rarely solicits instructors' perspective outside class . 	<ul style="list-style-type: none"> - rarely prepared; - often arrives late; - never solicits instructors' perspective outside class 	

Classroom Participation: Oral Presentation

Element	Excellent			Satisfactory			Needs Improvement			Points
	8	7	6	5	4	3	2	1	0	
Organization	<ul style="list-style-type: none"> There is a logical sequence of information. Title slide and closing slide are included appropriately. 			<ul style="list-style-type: none"> There is some logical sequence of information. Title slide and closing slides are included. 			<ul style="list-style-type: none"> There is little or no logical sequence of information. Title slide and/or closing slides are not included. 			
Slide Design (text, colors, background, illustrations, size, titles, subtitles)	<ul style="list-style-type: none"> Presentation is attractive and appealing to viewers. 			<ul style="list-style-type: none"> Presentation is somewhat appealing to viewers. 			<ul style="list-style-type: none"> Little to no attempt has been made to make presentation appealing to viewers. 			
Content	<ul style="list-style-type: none"> Presentation covers topic completely and in depth. Information is clear, appropriate, and accurate. 			<ul style="list-style-type: none"> Presentation includes some essential information. Some information is somewhat confusing, incorrect, or flawed. 			<ul style="list-style-type: none"> Presentation includes little essential information. Information is confusing, inaccurate, or flawed. 			
Language	<ul style="list-style-type: none"> Spelling, grammar, usage, and punctuation are accurate Fluent and effective 			<ul style="list-style-type: none"> There are minor problems in spelling, grammar, usage, and/or punctuation. 			<ul style="list-style-type: none"> There are persistent errors in spelling, grammar, usage, and/or punctuation. Less or not fluent and effective. 			
Delivery	<ul style="list-style-type: none"> Ideas were communicated with enthusiasm, proper voice projection and clear delivery. There was sufficient eye contact with audience. There were sufficient use of other non-verbal communication skills. Appropriate delivery pace was used. 			<ul style="list-style-type: none"> There was some difficulty communicating ideas due to voice projection, lack of preparation, incomplete work, and/or insufficient eye contact. Insufficient use of non-verbal communication skills. Delivery pace is somewhat appropriate. 			<ul style="list-style-type: none"> There was great difficulty communicating ideas due to poor voice projection, lack of preparation, incomplete work, and/or little or no eye contact. No use of non verbal communication skills. Inappropriate delivery pace was used. 			

Interaction with Audience	<ul style="list-style-type: none"> ▪ Answers to questions are coherent and complete. ▪ Answers demonstrate confidence and extensive knowledge. 	<ul style="list-style-type: none"> ▪ Most answers to questions are coherent and complete. ▪ Answers somehow demonstrate confidence and extensive knowledge. 	<ul style="list-style-type: none"> ▪ Answers to questions are neither coherent nor complete. ▪ Is tentative or unclear in responses. 	
	Total Score (Y x 5/16) =
