**Syllabus: Research Methods in Medical Imaging (140508374)**  
**Second Semester 2021- 2022**

**COURSE INFORMATION**

<b>Course Name:</b> Research Methods in Medical Imaging <b>Semester:</b> Second <b>Department:</b> Department of Medical Imaging <b>Faculty:</b> Faculty of Applied Medical Science	<b>Course Code:</b> 140508374 <b>Section:</b> Elective <b>Core Curriculum:</b> Elective
<b>Day(s) and Time(s):</b> مدمج Monday: 14:00-15:15 ع.ط 204 Wednesday: 14:00-15:15 (Microsoft teams) <b>Classroom:</b> ع.ط 204	<b>Credit Hours:</b> 3 <b>Prerequisites:</b> None

**COURSE DESCRIPTION**

This course will offer an opportunity for members to set up or increase their knowledge of research through an essential exploration of research language, ethics, and approaches. The course introduces the language of research, ethical concepts and challenges, and the factors of the research process within the quantitative, qualitative, and mixed techniques approach. Participants will use these theoretical underpinnings to begin to critically evaluate literature relevant to their discipline or interests and determine how research findings are beneficial in forming their knowledge in their work, social, nearby, and global environment

**DELIVERY METHODS**

The course will be delivered through a combination of active learning strategies. These will include:

- PowerPoint lectures and active classroom-based discussion
- Collaborative learning through small groups acting in an interdisciplinary context.
- Relevant films and documentaries
- E-learning resources: e-reading on Microsoft Team

**FACULTY INFORMATION**

<b>Name</b>	
<b>Academic Title:</b>	Assistance Professor
<b>Office Location:</b>	ع.ط 3166
<b>Telephone Number:</b>	5357
<b>Email Address:</b>	<i>kholouds@hu.edu.jo</i>
<b>Office Hours:</b>	<b>Monday</b> 10-11 <b>Tuesday</b> 9-11 <b>Thursday</b> 10-11

*Please send an e-mail (-- kholouds@hu.edu.jo) to meet at any other time.*

## REFERENCES AND LEARNING RESOURCES

**Required Textbook:** There is no required textbook for purchase. All compulsory weekly readings are available electronically on Microsoft teams.

**Suggested Additional Resources:** Research design: Qualitative, quantitative, and mixed methods approach. Creswell, J. W Thousand Oaks, CA: Sage2018.5<sup>th</sup> ED

## STUDENT LEARNING OUTCOMES MATRIX\*

Core Curriculum Learning Outcomes	Program Learning Outcomes	Course Objectives	Course Student Learning Outcomes	Assessment Method
<p>Think critically and creatively in a variety of methods in order to make decisions and solve problems</p> <p>Communicate competently with others using oral and written English skills</p>	<p>KP1: Develop an understanding of human anatomy and physiology as it relates to health and disease and acquire competency in medical terminology, documentation</p>	<ul style="list-style-type: none"> <li>Understand research terminology</li> </ul>	<ul style="list-style-type: none"> <li>You will first review the concept and language of research as well as consider where research topics come from, how to narrow them, and how to develop a research question</li> </ul>	<ul style="list-style-type: none"> <li>Exams</li> <li>“On-line’ reading</li> <li>Selecting an Area of Research in your professional area</li> <li>Library Research Refresher</li> </ul>
		<ul style="list-style-type: none"> <li>Understand the research methodology</li> </ul>	<p>You will learn about the nature of research including three key forms: exploratory research, descriptive research and explanatory research.</p>	<ul style="list-style-type: none"> <li>Exams</li> <li>“On-line’ reading</li> <li>Library Research Refresher</li> </ul>
	<p>KP2: Understand the principles and physics of medical imaging technologies such as general X-ray, CT, MRI, ultrasound, fluoroscopy, nuclear medicine, dental radiography, and mammography and relate medical research</p>	<ul style="list-style-type: none"> <li>Introduces the key aspects of qualitative and quantitative research</li> </ul>	<ul style="list-style-type: none"> <li>You will learn to appraise when qualitative and quantitative approaches are appropriate to address a research question as well as the associated data collection techniques and their assessment</li> </ul>	<ul style="list-style-type: none"> <li>Discuss one example of research you have read and determine the main concepts that you have learned</li> </ul>
		<ul style="list-style-type: none"> <li>Understand how design your research and what is the hypothesis</li> </ul>	<ul style="list-style-type: none"> <li>You will examine how to design research to establish cause-effect relationships, including the concept of a control group. Likewise, the various ‘threats’ to confirming cause-effect relationships will be reviewed.</li> <li>Understand the hypothesis</li> </ul>	<ul style="list-style-type: none"> <li>Exams</li> <li>On-line’ reading</li> </ul>
		<ul style="list-style-type: none"> <li>Understand how to perform literature review and analyse a journal article</li> </ul>	<ul style="list-style-type: none"> <li>You will be able to analyse LR and journal article</li> </ul>	<ul style="list-style-type: none"> <li>Exams</li> <li>Read journal article related to the Medical Imaging field and identified the main concepts</li> </ul>
		<ul style="list-style-type: none"> <li>Examine the important role that sampling plays in conducting research</li> </ul>	<ul style="list-style-type: none"> <li>You will learn about several common types of sampling.</li> <li>The concepts of probability and sampling error will be reviewed.</li> </ul>	<ul style="list-style-type: none"> <li>Exams</li> <li>Class discussion groups</li> </ul>
		<ul style="list-style-type: none"> <li>understanding and integration of basic statistical procedures</li> </ul>	<ul style="list-style-type: none"> <li>You will learn foundation of ‘descriptive statistics’ (means, medians, modes, distribution, variation, and correlation). Other basic statistical concepts</li> </ul>	<ul style="list-style-type: none"> <li>Exams</li> <li>Class discussion groups</li> </ul>
		<p>KP3: Develop and implement protocols for medical imaging procedures, including patient positioning, patient care, proper exposure factor selection, appropriate radiation protection measures,</p>		

	<p>demonstrating technical competence, and the use of contrast agents</p> <p>SP1: Demonstrate depth of knowledge and integrate it of the basic scientific principles of all medical imaging technologies for the implementation of various protocols and techniques and to conduct scientific research in this field</p> <p>SP2: Use creativity, critical thinking, analysis, and research skills to modify standard procedures to adapt to new circumstances, difficult cases, or unusual situations while maintaining appropriate medical imaging quality.</p> <p>SP3: Evaluate and criticize all types of medical images</p>	<ul style="list-style-type: none"> <li>• explore the concept of research ethics and how it impacts research design</li> </ul>	<ul style="list-style-type: none"> <li>• You will be able to discuss aspects of research ethics drawing from considerations in your area of study</li> </ul>	<ul style="list-style-type: none"> <li>• Exams</li> <li>• On-line' reading</li> </ul>
--	---	---	--	---

	<p>CP1: Access, evaluate, and provide medical imaging requirements</p> <p>CP2: Recognizing the need to learn from professional learning, managing learning in the field of medical imaging in an integrated manner, and acquiring continuous learning skills</p> <p>CP3: Demonstrate professional identity and responsibility with patients, colleagues, employers, and society, with ethical and professional behaviors and attitudes in the practice of health care.</p> <p>CP4: Produces high quality, diagnosable medical images by applying positioning skills, selecting technical parameters, and using radiation protection.</p>

It is The Hashemite University policy to provide educational opportunities that ensure fair, appropriate and reasonable accommodation to students who have disabilities that may affect their ability to participate in course activities or meet course requirements. Students with disabilities are encouraged to contact their Instructor to ensure that their individual needs are met. The University through its Special Need section will exert all efforts to accommodate for individual's needs.

**Email:**

## COURSE REGULATIONS

### *Participation*

Class participation and attendance are important elements of every student's learning experience at The Hashemite University, and the student is expected to attend all classes. A student should not miss more than 15% of the classes during a semester. *Those exceeding this limit of 15% will receive a failing grade regardless of their performance.* It is a student's responsibility to monitor the frequency of their own absences. **Attendance record begins on the first day of class irrespective of the period allotted to drop/add and late registration. It is a student's responsibility to sign-in; failure to do so will result in a non-attendance being recorded.**

In exceptional cases, the student, with the instructor's prior permission, could be exempted from attending a class provided that the number of such occasions does not exceed the limit allowed by the University. The instructor will determine the acceptability of an absence for being absent. A student who misses more than 25% of classes and has a valid excuse for being absent will be allowed to withdraw from the course.

### *Plagiarism*

Plagiarism is considered a serious academic offence and can result in your work losing marks or being failed. HU expects its students to adopt and abide by the highest standards of conduct in their interaction with their professors, peers, and the wider University community. As such, a student is expected not to engage in behaviours that compromise his/her own integrity as well as that of the Hashemite University.

Plagiarism includes the following examples and it applies to all student assignments or submitted work:

- **Use of the work, ideas, images or words of someone else without his/her permission or reference to them.**
- **Use of someone else's wording, name, phrase, sentence, paragraph or essay without using quotation marks.**
- **Misrepresentation of the sources that were used.**

**The instructor has the right to fail the coursework or deduct marks where plagiarism is detected**

### *Late or Missed Assignments*

In all cases of assessment, students who fails to attend an exam, class project or deliver a presentation on the scheduled date without prior permission, and/or are unable to provide a medical note, will automatically receive a fail grade for this part of the assessment.

- Submitting a term paper on time is a key part of the assessment process. Students who fail to submit their work by the deadline specified will automatically receive a 10% penalty. Assignments handed in more than 24 hours late will receive a further 10% penalty. Each subsequent 24 hours will result in a further 10% penalty.

- In cases where a student misses an assessment on account of a medical reason or with prior permission; in line with university regulations an incomplete grade for the specific assessment will be awarded and an alternative assessment or extension can be arranged.

### ***Student Complaints Policy***

Students at The Hashemite University have the right to pursue complaints related to faculty, staff, and other students. The nature of the complaints may be either academic or non-academic. For more information about the policy and processes related to this policy, you may refer to the students' handbook.

## **COURSE ASSESSMENT**

### ***Course Calendar and Assessment***

Students will be graded through the following means of assessment and their final grade will be calculated from the forms of assessment as listed below with their grade weighting taken into account. The criteria for grading are listed at the end of the syllabus

<b>Assessment</b>	<b>Grade Weighting</b>	<b>Deadline Assessment</b>
First Exam	30%	4/4/2022
Second Exam		9/5/2022
Homework	30%	
Final Exam	40%	University schedule

### **Description of Exams**

Test questions will predominately come from material presented in the lectures. Semester exams will be conducted during the regularly scheduled lecture period. Exam will consist of a combination of multiple choice, short answer, match, true and false and/or descriptive questions.

**Homework:** Will be given for each chapter, while the chapter in progress you are supposed to work on them continuously and submit in next lecture when I finish the chapter.

You are also expected to work on in-chapter examples, self-tests and representative number of end of chapter problems. The answers of self-tests and end of chapter exercises are given at the end of the book.

**Quizzes:** Unannounced quizzes will be given during or/and at the end of each chapter based upon the previous lectures. It will enforce that you come prepared to the class.

No make-up exams, homework or quizzes will be given. Only documented absences will be considered as per HU guidelines.

Grades are not negotiable and are awarded according to the following criteria:

Letter Grade	Description	Grade Points
A+	Excellent	4.00
A		3.75
A-		3.50
B+	Very Good	3.25
B		3.00
B-		2.75
C+	Good	2.50
C		2.25
C-		2.00
D+	Pass	1.75
D	Pass	1.50
F	Fail	0.00
I	Incomplete	-

### WEEKLY LECTURE SCHEDULE AND CONTENT DISTRIBUTION

*“Lecture hours and weeks are approximate and may change as needed”*

Note: For Research Methods in Medical Imaging course with 2 lecture periods per week (M/W), one lecture period covers 1.5 lecture hours (80 minutes). The course content that will be included in homework and exams.

Module 1	Introduction to Research and the Research Process	Week 1	2 lecture hours
Module 1	Research basic	Week 2	2 lecture hours
Module 1	Research methodology	Week 3	2 lecture hours
Module 2	Quantitative Research	Week 4	2 lecture hours
Module 2	Qualitative Research	Week 5	2 lecture hours
Module 3	Construction of research proposal	Week 6-7	4 lecture hours
Module 3	Hypothesis	Week 8	2 lecture hours
Module 4	Literature review	Week 9-10	4 lecture hours
Module 5	Sampling	Week 11	2 lecture hours
Module 5	Sample methods	Week 12	2 lecture hours
Module 6	Data display	Week 13	2 lecture hours
Module 7	Research Ethics and Integrity	Week 14	2 lecture hours
Review and discusses homework		Week 15	2 lecture hours
University Exams		Week 16	

### ASSESSMENT RUBRICS

*Classroom Participation: Oral Presentation*

**Classroom Participation: Assessment Criteria**

**Quality**

Criteria	Excellent (4 points)	Good (3 points)	Satisfactory (2 points)	Needs Improvement (1 points)	Score
<b>Degree to which student integrates course readings into classroom participation</b>	<ul style="list-style-type: none"> <li>- often cites from readings ;</li> <li>- uses readings to support points;</li> <li>- often articulates "fit" of readings with topic at hand.</li> </ul>	<ul style="list-style-type: none"> <li>-occasionally cites from readings;</li> <li>- sometimes uses readings to support points;</li> <li>-occasionally articulates "fit" of readings with topic at hand .</li> </ul>	<ul style="list-style-type: none"> <li>-rarely able to cite from readings;</li> <li>-rarely uses readings to support points;</li> <li>-rarely articulates "fit" of readings with topic at hand</li> </ul>	<ul style="list-style-type: none"> <li>-unable to cite from readings;</li> <li>-cannot use readings to support points; cannot articulates "fit" of readings with topic at hand .</li> </ul>	
<b>Interaction / participation in classroom discussions</b>	<ul style="list-style-type: none"> <li>-always a willing participant, responds frequently to questions;</li> <li>- routinely volunteers point of view .</li> </ul>	<ul style="list-style-type: none"> <li>-often a willing participant,</li> <li>-responds occasionally to questions;</li> <li>-occasionally volunteers point of view .</li> </ul>	<ul style="list-style-type: none"> <li>-rarely a willing participant,</li> <li>-rarely able to respond to questions;</li> <li>- rarely volunteers point of view .</li> </ul>	<ul style="list-style-type: none"> <li>-never a willing participant.,</li> <li>-never able to respond to questions;</li> <li>- never volunteers point of view .</li> </ul>	
<b>Interaction /participation in classroom learning activities</b>	<ul style="list-style-type: none"> <li>-always a willing participant;</li> <li>-acts appropriately during all role plays;</li> <li>-responds frequently to questions;</li> <li>-routinely volunteers point of view.</li> </ul>	<ul style="list-style-type: none"> <li>-often a willing participant;</li> <li>-acts appropriately during role plays;</li> <li>- responds occasionally to questions;</li> <li>-occasionally volunteers point of view.</li> </ul>	<ul style="list-style-type: none"> <li>-rarely a willing participant.</li> <li>-occasionally acts inappropriately during role plays;</li> <li>- rarely able to respond to direct questions;</li> <li>-rarely volunteers point of view .</li> </ul>	<ul style="list-style-type: none"> <li>-never a willing participant</li> <li>-often acts inappropriately during role plays; ,</li> <li>-never able to respond to direct questions;</li> <li>- never volunteers point of view.</li> </ul>	

<b>Demonstration of professional attitude and demeanor</b>	-always demonstrates commitment through thorough preparation; -always arrives on time; -often solicits instructors' perspective outside class.	- rarely unprepared; rarely arrives late; -occasionally solicits instructors' perspective outside class .	-often unprepared; occasionally arrives late; - rarely solicits instructors' perspective outside class .	-rarely prepared; - often arrives late; -never solicits instructors' perspective outside class
