## **FACULTY OF NURSING (FON)**

### **COURSE SYLLABUS**

#### **Department of Community and Mental Health Nursing**

**[Fall 2022-2023]**

---

#### **The Mission of The Hashemite University**

The Hashemite University as a youthful and prominent higher education institution is committed to actively participate in achieving the goals of the comprehensive national development through preparing loyal men and women who are not only technically competent in their professional fields, but also life-long learners who have a breadth vision, loyalty to their nation, and a sense of civic and moral responsibility and a devotion to the fundamental values of human life.

#### **The Vision of The Faculty of Nursing**

The Faculty of Nursing will be a benchmark in nursing education and research at the national and international levels. Our graduates will be creative, skillful, caring, knowledgeable nurses who will lead for excellence in health care and health promotion of individuals, families and communities in collaboration with other health disciplines.

#### **The Mission of The Faculty of Nursing**

To offer a quality undergraduate program in nursing that prepare life-long competent, skillful, and adaptive leaders to develop, disseminate, and perform latest evidence-based quality nursing knowledge in promoting and protecting the health and well-being of all individuals, families and communities, improving nursing profession and developing health care system.

#### **Core Values of The Faculty of Nursing**

Our values are derived from the Islamic Arabic heritage and the nursing profession which include:

***Respect, Integrity, Professionalism, Caring, Excellence, Leadership Discipline.***

## 17. Course Description

This course provides nursing students with the essential knowledge, skills, and attitudes needed in providing nursing care for patients with psychological, emotional, social, and behavioral disturbances. This course introduces the principles and basic concepts of psychiatric mental health nursing and its applications. The course is based on a holistic and humanistic framework, emphasizing critical thinking, caring, and therapeutic nursing interventions. Nursing process forms the foundation of decision-making and encompasses all significant actions taken by nurses in providing relevant mental health care to all clients.

## 18. Course general Objective and Outcomes:

### A- General objective:

The objective of this course is to provide nursing students the most up-to-date information related to neurobiology, psychopharmacology, and evidence-based nursing interventions for individuals, families, and groups.

**B- Student Learning Outcomes (SLOs):** Upon successful completion of this course, students will be able to...

<b>Student Learning Outcomes (SLO's)</b>
--

**SLO 1:** Utilize the nursing process to promote health, prevent diseases and provide holistic care of diverse individuals, families, and populations in various health care settings.

Specific Course Objectives	<ul style="list-style-type: none"> <li>● <b>Apply</b> the nursing process and critical thinking skills to provide professional, safe, and holistic nursing care and provide specific nursing interventions for different clients with mental illnesses.</li> <li>● <b>Integrate</b> relevant research findings into the care of clients and their families with mental illnesses to promote mental health.</li> <li>● <b>Incorporate</b> the client's cultural beliefs and practices into the nursing process.</li> </ul>
Relevant AACN Domains	<p><b>Domain 1:</b> Knowledge for Nursing Practice</p> <p><b>Domain 2:</b> Person-Centered Care</p> <p><b>Domain 3:</b> Population Health</p> <p><b>Domain 5:</b> Quality &amp; Safety</p> <p><b>Domain 9:</b> Professionalism</p> <p><b>1. Performance:</b></p>
Relevant JNC Standard & Core-Competencies	<p>Professional Practice, Holistic Care <b>2.</b></p> <p><b>Knowledge:</b></p>
JNC Program Outcome Competencies	<p>Evidence-Based Knowledge, Critical Thinking</p> <p>1. Safe and effective care environment 35%</p>
Evaluation Methods	<p>2. Health Promotion\prevention and maintenance 15%</p> <ul style="list-style-type: none"> <li>●</li> <li>3. Physiological Integrity 35%</li> <li>4. Psychosocial Integrity 10%</li> <li>5. Global health and health economics 5%</li> <li>●</li> <li>● Written Assignment</li> <li>● In-course exam (First, Second, Final)</li> </ul>
<b>SLO 2:</b> Demonstrate competency and safety in providing professional, ethical and evidence based nursing care to individuals, families and populations across life span and health continuum.	<p><b>Appraise</b> ethical and legal behaviours based on the code of ethics in caring for mentally ill patients</p>

Specific Course Objectives

**Discuss** strategies and tools that psychiatric nurses can use to assure client safety and to promote quality psychiatric nursing care within organizations.

**Provide** basic knowledge and skills to assess individuals and collaborate with families and communities across the life span in assessing mental illnesses.

**Demonstrate** competency in performing and providing the

role of a professional nurse in quality care provision for individuals, families, and groups.

**Incorporate** family role in providing positive reinforcement for appropriate behaviour and interaction with clients with mental illnesses.

## 19. Teaching Methods and Assignments:

## Teaching Methodologies:

The following approaches that are guided by *Adult Learning Theory* will be used to achieve course objectives and related to the SLOs:

### Instructional Methods

- Indirect Instruction
- Interactive Instruction
- Independent Study

### Learning Activities (Examples)

- Evidence-based articles
- Case Study-based method
- Activities and tasks such as watching educational videos
- Literature searches and reviews
- Interactive lectures that integrates group work, classroom discussions, presentation, brainstorming, and guided discussion to promote individual competencies in **critical thinking, problem solving** and **clinical judgment**.
- E-learning using Moodle
- Self-directed literature review and group-based written assignment

## 20. Evaluation Methods and Course Requirements:

### I. Evaluation Methods

Exams	Assigned Points
First Exam	25%
Second Exam	25%
Assignments	10%
Final Exam	40%
<b>Total</b>	<b>100%</b>

## 21. Textbooks and Study Resources

### Required Text Book

1. Computers with internet access
2. E-library and electronic resources
3. Library resources
4. Audiovisual aid and well equipped teaching halls

## 22. Grading Scale

Grading Scale			
Note. In-course assessment mark is provided in two decimal points and the final exam marks in one decimal.			
Letter Grade	Numeric Value	Range	Description
A+	4.00	> 88.0%	
A	3.75	84.0 – 87.9	
Approved by The Faculty Board on June 6th, 2021			
Reviewed and updated 10-7-2023			

A <sup>-</sup>	3.50	80.0 - 83.9	
B <sup>+</sup>	3.25	76.0 - 79.9	
B	3.00	73.0 - 75.9	Very good performance
B <sup>-</sup>	2.75	70.0 - 72.9	
C <sup>+</sup>	2.50	65.0 - 69.9	
C	2.25	60.0 - 64.9	Satisfactory performance
C <sup>-</sup>	2.00	57.0 - 59.9	
D <sup>+</sup>	1.75	54.0 - 56.9	
D	1.50	50.0 - 53.9	Minimally acceptable performance
F	0.0	< 50.0	Unacceptable performance

## 23. Course Policies

### **Code of Ethics:**

- Academic misconduct is defined as the use of any dishonest or deceitful means to gain some academic advantage or benefit. This can take many forms, including but not limited to, the following:

#### **I. Examinations**

- a. Copying, or attempting to copy, from another student's work, or permitting another student to copy from your work.
- b. Using notes of whatever kind in the formation of answers in a closed book examination.
- c. Impersonation of another student in an examination, seminar or other form of presentation.
- d. Disrupting the conduct of examinations by illegally obtaining access to examination papers or answers, and/or distribution of this material to others.

#### **II. Assignments**

- a. *Copying:* Copying another person's answers in a paper, assignment, essay, etc. and presenting it as if it were the student's own work.
- b. *Collusion:* Incorporating material into your work that was a results of working with others on an assignment which is intended to be an individual assignment.
- c. *Plagiarism:* Using the thoughts, ideas, words, results, etc., of another person in a written assignment, without recognizing the source, as if it were the student's own work.
- d. *Falsification:* altering data or Inventing data that have been obtained from legitimate sources

#### **III. Forging University Documents**

- Submitting or using forged academic documents or forged signatures for the purpose of personal gain or fraud. If a student commits an act of academic misconduct, whether defined above or of different nature, it may be documented and then one or more of the following penalties may be applied:

- a. Written warning.
- b. Deducting of an assignment or examination.

- c. An 'Zero' grade given to the assignment or examination.
- d. An 'F' grade given to the course.
- e. Suspension from the University for a Specified Period.
- f. Dismissal from the University.

**Attendance, Preparation, and Participation Policy**

- A. It is the student's responsibility to attend all classes. Per the Hashemite University's rules and regulations, the student's total absences must not exceed 15% of the total class hours.
- B. Failure to attend classes without prior approval for whatever reason is considered as part of the percentage missed.
- C. Students bear full responsibility for checking their own attendance record. Attendance records are kept.
- D. Compulsory attendance is required for all in-course assessment and final examination. The examination will not be postponed for any student without an emergency reason or approved medical certificates.
- E. Compulsory participation in discussions, written assignments, use of case scenarios and e-learning. Moodle) is expected to complete the course requirements.
- F. Students should interact with the teacher on Moodle for discussion related to the content taught in the classroom. Students should register for the course work on Moodle and use it frequently for the teaching learning sessions and instructions. The students should actively involve in these interactive classroom and online learning sessions.
- G. Absenteeism: Students who remain absent should meet the Course Coordinator. Those who are sick will produce a medical certificate certified by the University's Medical Center and submit it.

#### **Clinical Policies** (if applicable)

1. **Attendance:** students are expected to attend all classes and practice days. If a student cannot attend a class session or practice day, the instructor must be notified prior to that. Per the Hashemite University's rules and regulations, the student's total absences must not exceed 15% of the total class hours. This is equal to one day clinical. Students are expected to take written and clinical exams when scheduled. If a student cannot attend a testing session, the faculty must be notified prior to the scheduled examination. Please refer to the Hashemite University's Student Handbook for further explanation. Also please note that it is a new university policy that if a student failed to take an examination as scheduled, there will be one make-up examination. A committee of three examiners will present the students with a set of oral and written essay type questions. Only students with acceptable reasons (i.e., urgent medical condition approved by the University Health Center, death of a first-degree relative, etc.) for absence will have the opportunity for a make-up examination.

2. **Practice:** There is a set of guidelines for practical training that will also be provided to each student on a separate sheet to keep with them at hospitals. These guidelines include:

A. Practical training starts at 8:00 and ends at 2:00.

B. The student has to manage his/her own transportation to the hospital except for those who will be trained in specific areas (will be announced), a university bus will be provided.

C. The student has to wear the specified uniform and shoes at all times while at the hospital. The uniform must be clean and ironed properly.

D. All students have to maintain a professional appearance. This includes shaving for male students who do not grow their beards, and a proper haircut, and tied hair for female students, and for those who wear a scarf, it should not be left dangling.

E. It is the student's responsibility to maintain good personal hygiene.

- F. Jean pants are not allowed as well as colored scarves other than cream or page.
- G. Students are not allowed to chew gum or smoke in the clinical areas.
- H. Students should have their break time as scheduled and shall not exceed that.
- I. The following items are prohibited at clinical training: bracelets, rings other than the wedding ring, high heels or sandals, nail polish, long nails, and improper make-up.
- J. Every student must have the following on a clinical day: a pocket-size note book, a pen, scissors, a torch, and a stethoscope.
- K. The student has to inform either the nurse in-charge or the instructor when leaving his/her assigned clinical area.
- L. Clinical seminar and case-studies will be started and ended according to the schedule.
- Students are expected to report to these learning activities on time.
- M. Students are expected to use proper communication skills and to be cooperative with their instructors, colleagues, and other health team members.

**N. Students Must NOT perform the following:**

1. Perform venipuncture.
2. Take verbal orders or phone orders from physicians or laboratory reports.
3. Act as a witness to signing of documents (surgical permits, etc.)
4. Carry medication/narcotic keys.
5. Give any medications IV push
6. Add anticoagulant or insulin to IV solutions.
7. Insert or remove intestinal decompression tubes.
8. Insert or remove small lumen feeding tubes such as feeding tubes

### 23. Course Outlines

Week	Subject	Reading Activities	Topic, Assignments, and exams
1	<ul style="list-style-type: none"> <li>• Introduction to the course</li> <li>• Mental Health/Mental illness</li> </ul>	<b>Syllabus</b>  <b>Ch. 1</b>	Read Chapter 1 and discuss in groups the concepts of incomprehensibility and cultural relativity, describe some symptoms of panic anxiety and stage of the grieving process
2	<b>Concepts Personality Development</b>	<b>Ch. 2</b>	Read chapter 2 and discuss in groups the relevant knowledge associated with personality development to nursing in the psychiatric/mental health setting. We will discuss the major components of the following developmental theories: a. Psychoanalytic theory—Freud b. Interpersonal theory—Sullivan c. Theory of psychosocial development—Erikson
3	<b>Biological Implications Ethical &amp; Legal Issues</b>	<b>Ch. 3 &amp; 4</b>	Read Chapter 3 and 4 and discuss in groups the brain's gross anatomical structures and describe their functions, the physiology of neurotransmission within the central nervous system, and their roles in human behavior. We will also discuss the association of endocrine functioning to psychiatric development and the correlation of alteration in brain function to various psychiatric disorders. Finally, we will describe the physiological mechanism by which various psychotropic medications exert their effects and the implications of psychobiological concepts to psychiatric/mental.

<b>4 &amp; 5</b>	<b>Schizophrenia Spectrum &amp; Other Psychotic Disorders</b>	<b>Ch. 15</b>	<p>In this chapter, we will discuss the concepts of schizophrenia and other psychotic disorders, identify predisposing factors in the development of these disorders, and describe various types of schizophrenia and other psychotic disorders. In addition, we aim to teach students how to formulate nursing diagnoses and outcomes of care for clients with schizophrenia and other psychotic disorders and identify topics for client and family teaching relevant to schizophrenia and other psychotic disorders. Students will describe appropriate nursing interventions for behaviors associated with these disorders and describe relevant criteria for evaluating clients' nursing care with schizophrenia and other psychotic disorders</p>
<b>Assessment 1</b>			
<b>6</b>	<b>Neurocognitive Disorders</b>	<b>Ch. 13</b>	<p>In a group discussion, students will define and differentiate among various neurocognitive disorders (NCDs), discuss predisposing factors implicated in the etiology of NCDs, describe clinical symptoms and use the information to assess clients with NCDs, and identify nursing diagnoses common to clients with NCDs, and select appropriate nursing interventions for each. Students will also identify topics for client and family teaching relevant to NCDs, discuss criteria for evaluating clients' nursing care with NCDs, and describe various treatment modalities relevant to care of clients with NCDs.</p>
<b>7</b>	<b>Depressive disorders</b>	<b>Ch. 16</b>	<p>Students will describe various types of depressive disorders, identify predisposing factors in developing depression, discuss implications of depression related to developmental stage, and identify symptomatology associated with depression and use this information in client assessment. Students will formulate nursing diagnoses and goals of care for clients with depression, identify topics for client and family teaching relevant to depression, and describe appropriate nursing interventions for behaviors associated with depression. In a group</p>

			discussion, students will describe relevant criteria for evaluating clients' nursing care with depression and discuss various modalities relevant to treatment of depression. Students will apply the nursing process in care of suicidal clients and their significant others.
<b>8</b>	<b>Bipolar and Related Disorders</b>	<b>Ch. 17</b>	Discuss in groups various types of bipolar disorders, identify predisposing factors in the development of bipolar disorder, and identify symptomatology associated with bipolar disorder and use this information in client assessment. 			disorders of infancy, childhood, and adolescence.
<b>Final Exam</b>			

Approved by The Faculty Board on June 6th, 2021

## **Final Exam**

**Special Note: Students must wear face masks at all times when on campus and maintain social distancing (6 feet between individuals). Students who feel ill or experiencing symptoms such as sneezing, coughing, or fever will be excused from exams and stay at home. We have the right to ask those who are not complying with these requirements to leave class in the interest of everyone's health and safety. In addition, frequent and correct hand washing, wiping down desks and seats with disinfectant wipes, not sharing personal items, and avoiding crowded hallways and enclosed spaces will promote good health in and out of the classroom.**

### **19. Additional information:**

**9/10/ 2022 Beginning of Semester**

**Whenever a hybrid or online course will be used, HU Online Education Rules will be applied.**
